

MERCER INVESTMENT THEMES & ASSET ALLOCATION SURVEY 2017

Luca De Biasi
Wealth Business Leader Mercer Italy

Roma, 8 giugno 2017

CONTESTO DI MERCATO

EVOLUZIONE DELLO SCENARIO POST-CRISI

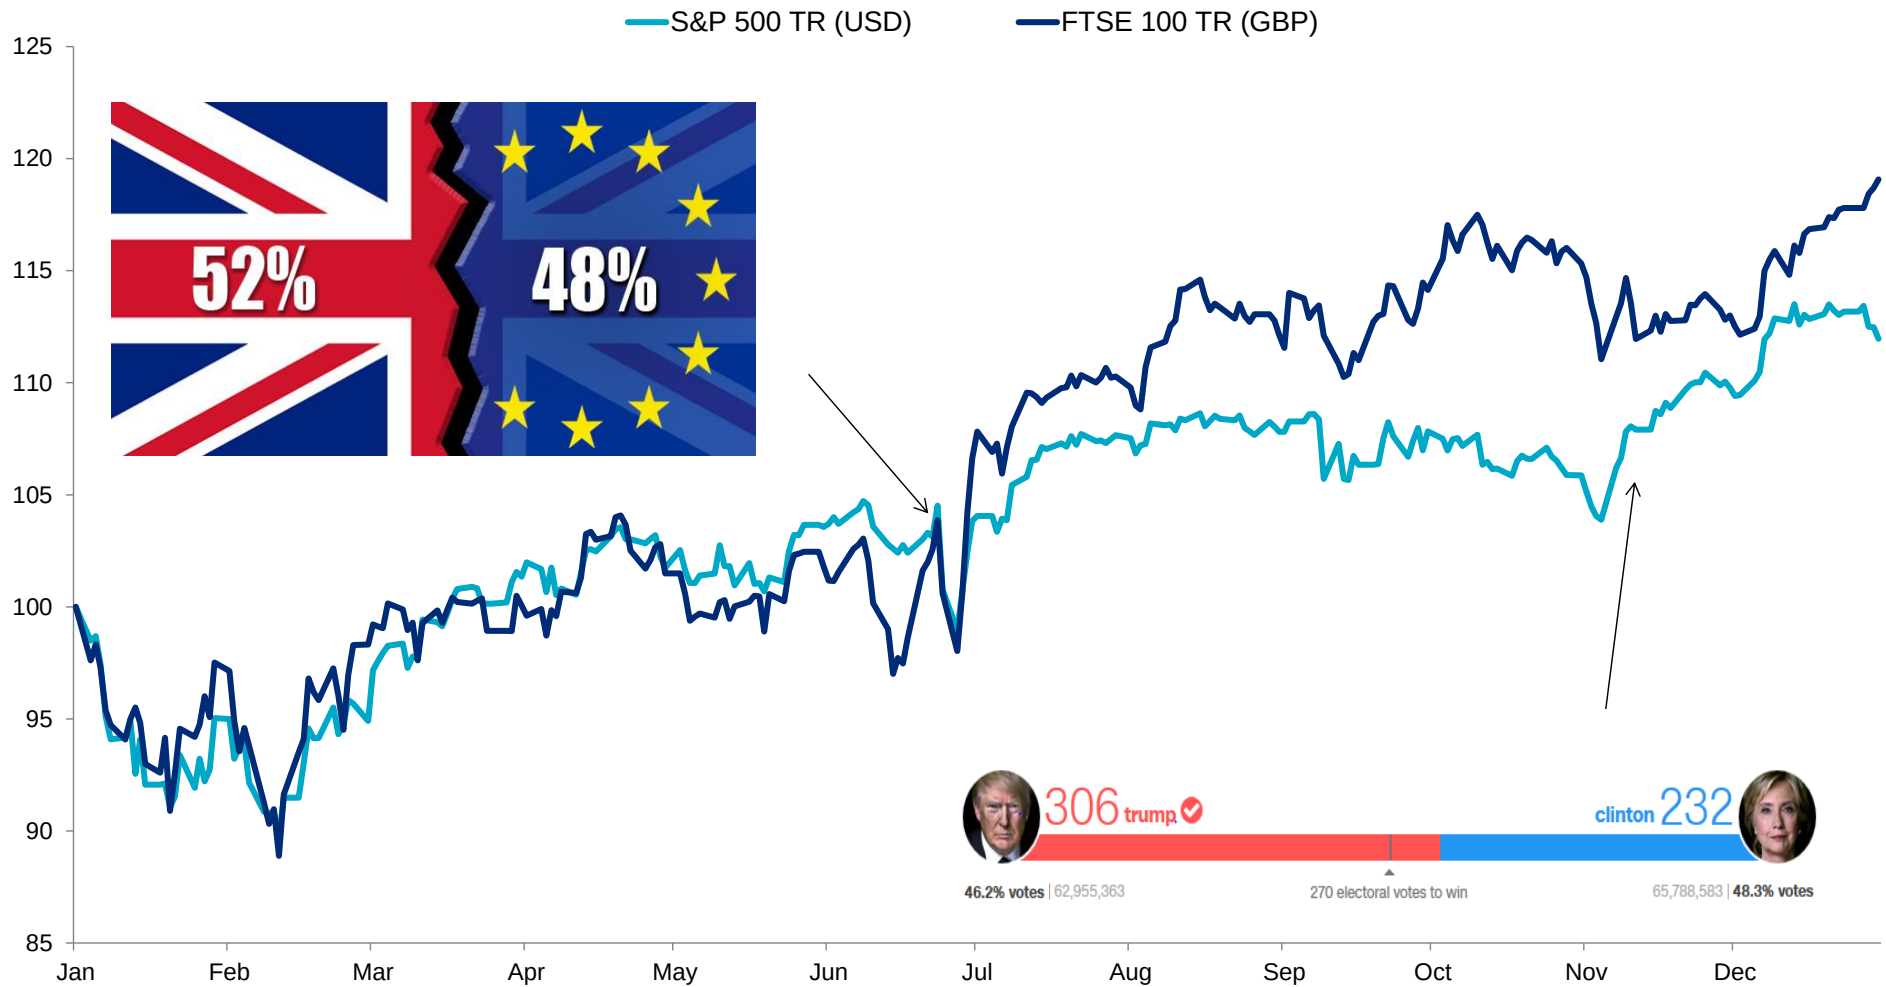

GESTIONE DELLA CRISI (2009-2014)

- Interventi di policy sincronizzati
- Elevati “premi al rischio” ma con un chiaro trend di discesa
 - Volatilità in calo
 - Prevalenza della politica monetaria
 - Predominanza di asset finanziari sottovalutati: “*buy beta*”
 - Rischi
 - Riduzione dei deficit
 - Impatti stimoli fiscali e monetari
 - Crisi dell’area Euro

TENTATIVO DI NORMALIZZAZIONE (2015-2020)

- Politiche monetarie divergenti
 - Bassi premi al rischio
 - Alta volatilità
- Pochi asset finanziari “a sconto”: “ricerca dell’*alpha*”
- Crescente enfasi sulla politica fiscale
- Rischi
 - Impatti della “normalizzazione”
 - Populismo in ascesa
 - De-globalizzazione e protezionismo
 - Minore liquidità nel mercato

UN ANNO DI SORPRESE POLITICHE

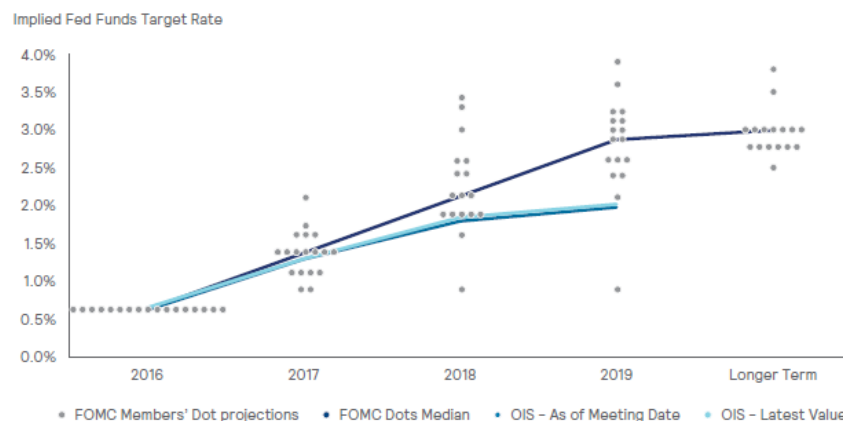

Source: Thomson Reuters Datastream

BANCHE CENTRALI E POLITICHE MONETARIE

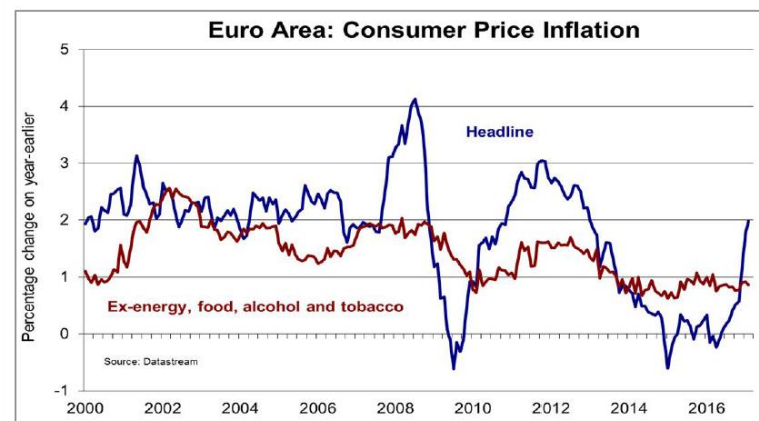

- Una crescita globale più sostenuta, un livello di disoccupazione più basso e un'inflazione in rialzo influenzeranno inevitabilmente le politiche monetarie
- Negli Stati Uniti, la Federal Reserve prevede 3 rialzi del tasso d'interesse nel 2017 e noi consideriamo questo come lo scenario di base per l'anno
- Nell'Eurozona, è probabile che la Banca Centrale Europea continui nella sua politica accomodante fornendo ulteriori stimoli monetari all'economia. Tuttavia è possibile anche che sul finire del 2017 la BCE possa considerare di concludere il programma di Quantitative Easing

FED EXPECTS TO RAISE INTEREST RATES

INFLAZIONE

- Nel 2017 l'inflazione globale dovrebbe raggiungere il 2,5%, aumentando rispetto al 2016 (1,5%) e principalmente trainata dal prezzo del petrolio
- L'inflazione core – che esclude i prezzi di cibo e energia – si prospetta più stabile e al di sopra del 2% solo negli Stati Uniti e nel Regno Unito. Nell'Eurozona e in Giappone prevediamo rimanga sotto la soglia del 2%
- In generale, vediamo un maggior rischio di rialzo per l'inflazione statunitense e un minore rischio di ribasso per quella giapponese e dell'Eurozona

ALTERNATIVI

- I rendimenti degli **Hedge Funds** sono stati poco convincenti nel 2016. Tuttavia, viste le attuali valutazioni azionarie e obbligazionarie dopo 8 anni di rendimenti elevati, puntare sugli alternativi sembra una strategia interessante
- Ci aspettiamo che gli Hedge Funds realizzino rendimenti netti ben al di sopra del cash e preferiamo quelli che esibiscono la minore correlazione con le asset class tradizionali
- Per gli investitori disposti a tollerare investimenti meno liquidi o illiquidi crediamo che i **mercati privati** possano rappresentare un'opportunità
- Il Private Debt, gli asset reali e il Private Equity attirano l'interesse degli investitori che vogliono migliorare i rendimenti, trovare nuove fonti di reddito o aumentare la diversificazione del portafoglio
- In ogni caso, suggeriamo di considerare i crescenti volumi di capitale allocati in alcune aree del mercato e di modulare l'esposizione nel tempo con un adeguato livello di diversificazione

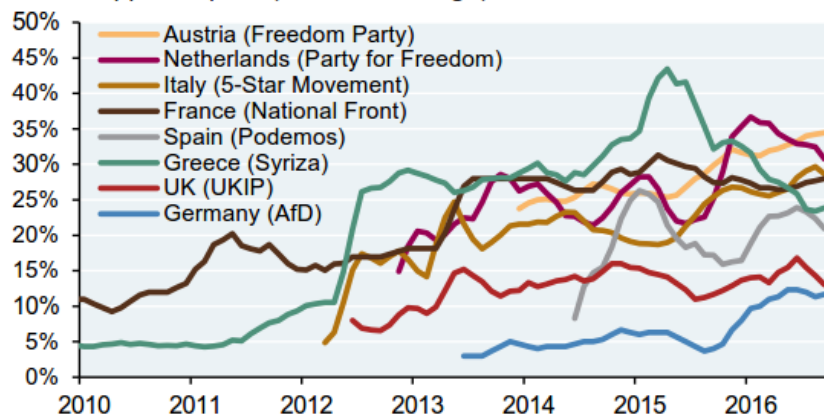

TEMI CHIAVE MERCER PER IL 2017 E OLTRE

1. FRAMMENTAZIONE

Rising support for populist parties in Europe

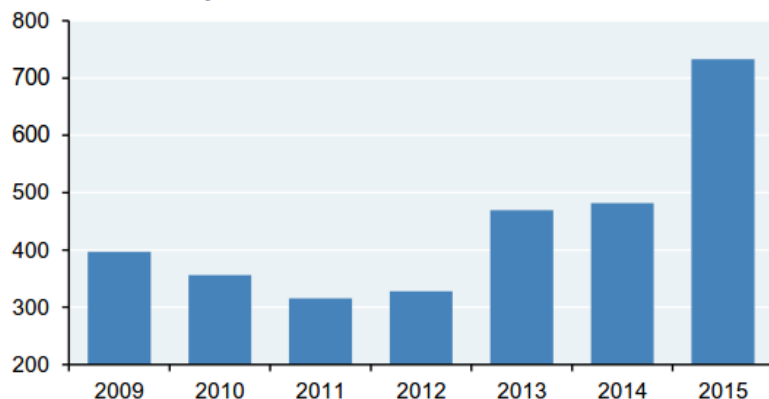

% of support in polls (3-month average)

Source: JPMorgan Asset Management. 30 September 2016.

Global rise in trade protectionism

of discriminatory trade measures

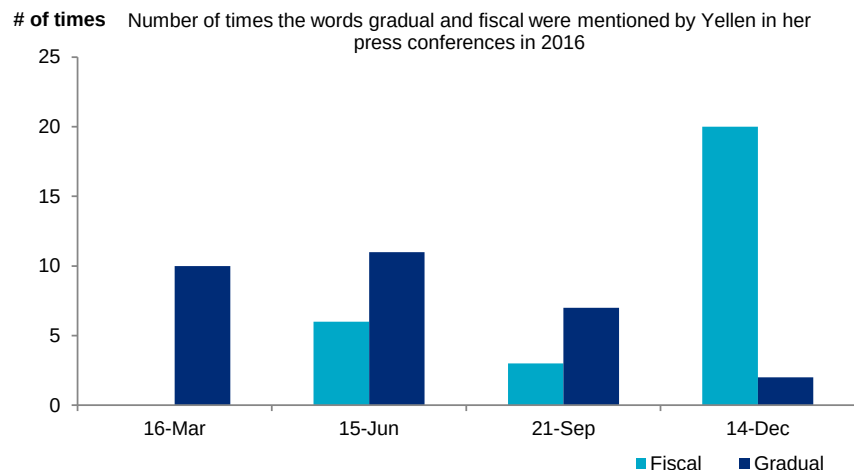

Source: Center for Economic and Policy Research. July 2016.

IMPLICAZIONI DI INVESTIMENTO

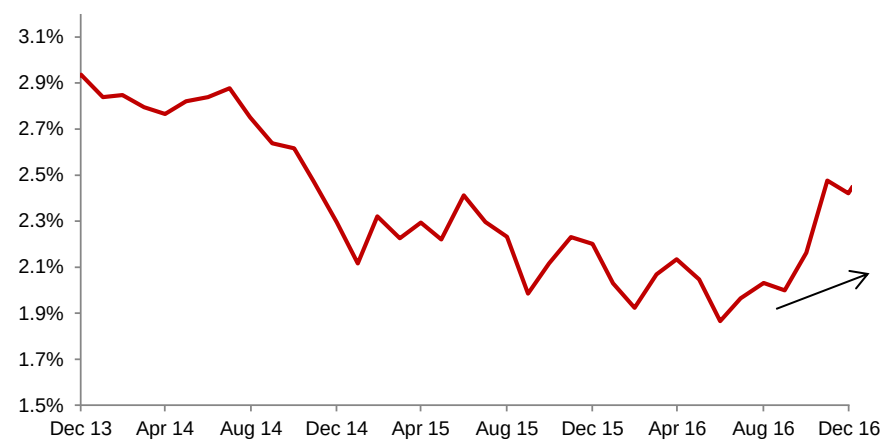

- Vi è il rischio che vittorie populiste in Europa creino una crisi esistenziale dell'EU e dell'Eurozona
- Stiamo entrando in un periodo di de-globalizzazione? I rischi includono un aumento nel protezionismo e una guerra commerciale
- Verificare la robustezza del portafoglio verso scenari negativi. Gli investitori sensibili alla volatilità possono considerare coperture "hard" o "soft"
- Periodi di stress e volatilità possono creare opportunità per strategie flessibili e dinamiche
- Possibilità di ulteriori grandi movimenti valutari. C'è bisogno di una chiara politica di copertura dal rischio di cambio e vi sono opportunità per i gestori attivi sulle valute

2. PASSAGGIO DALLA POLITICA MONETARIA ALLA POLITICA FISCALE

Goodbye Gradual, Hello Fiscal

US Inflation Expectations

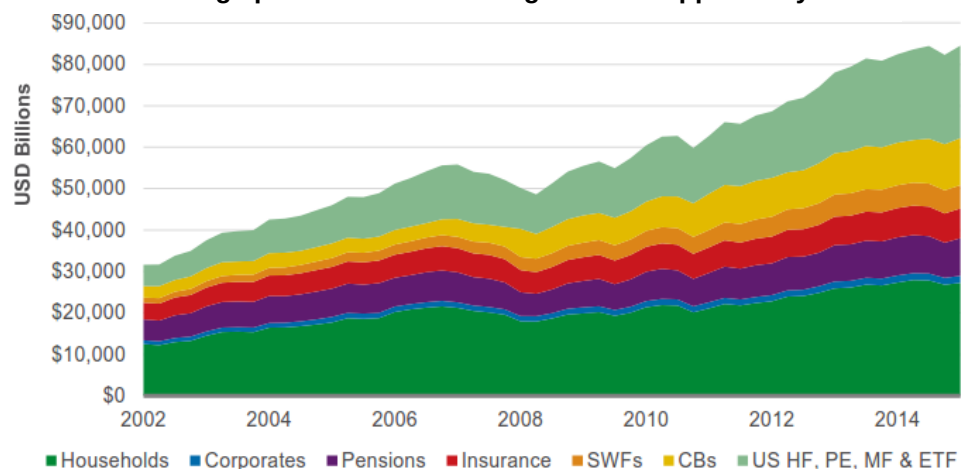

IMPLICAZIONI DI INVESTIMENTO

- Il ritmo e la portata degli stimoli fiscali restano incerti. È possibile che le forze reflazionistiche si rinvigoriscano nelle economie globali
- Considerare in che misura l'inflazione in crescita rappresenti un rischio concreto. Coperture specifiche dall'inflazione e asset reali possono essere interessanti
- Esposizioni al credito a tasso variabile o a duration corta possono essere preferibili a strategie legate al benchmark con esposizione strutturale alla duration
- Maggiore incertezza e divergenza tra politiche monetarie e fiscali possono creare opportunità per strategie macro
- Una politica monetaria restrittiva può portare a un aumento del tasso di default e creare opportunità per le strategie distressed debt

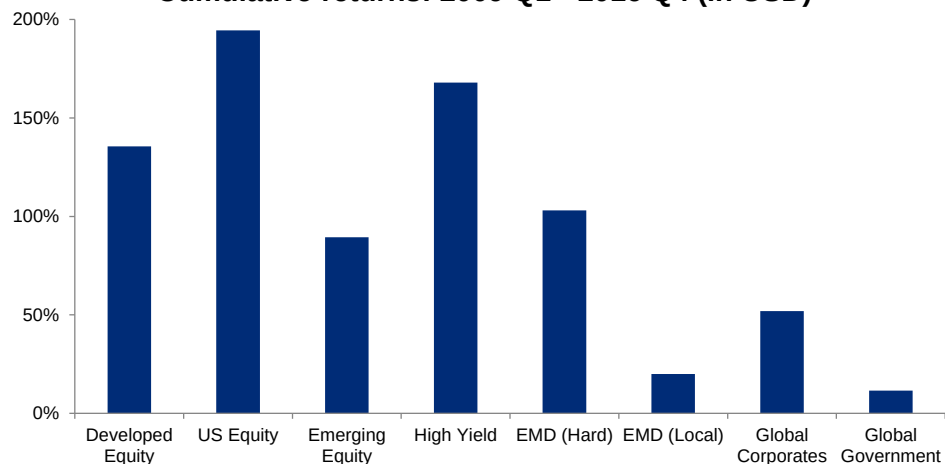

3. ABBONDANZA DI CAPITALE

Large pool of assets chasing a limited opportunity set

Source: BlackRock.

Cumulative returns: 2009 Q1 - 2016 Q4 (in USD)

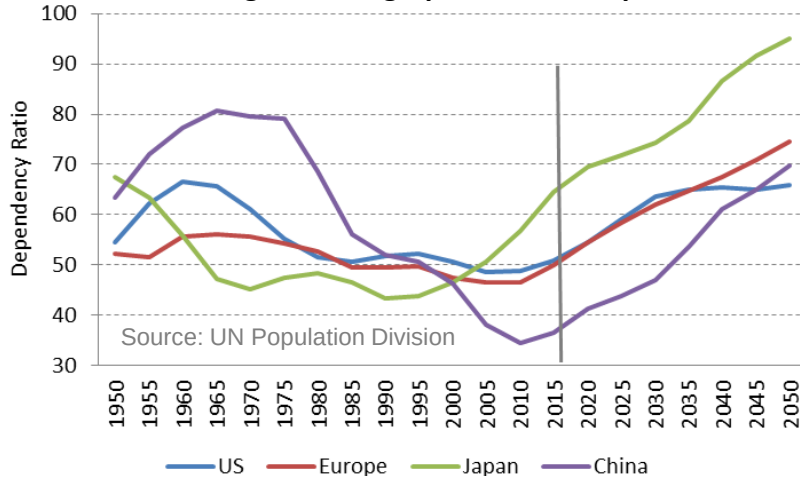

Source: Thomson Reuters Datastream, MSCI, S&P, JP Morgan, BAML

IMPLICAZIONI DI INVESTIMENTO

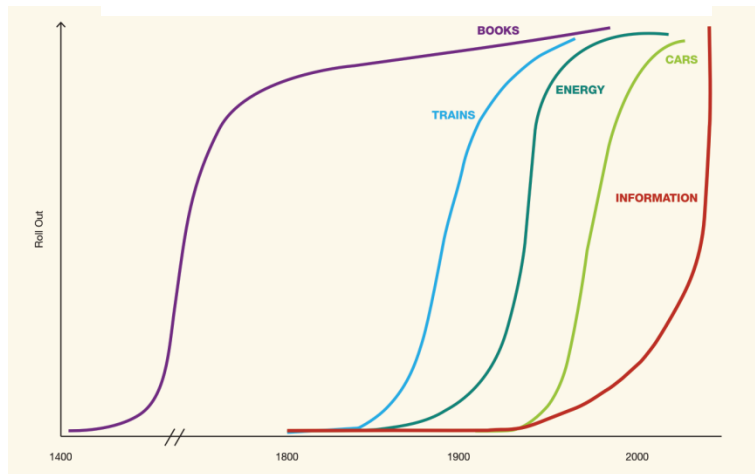

- I rendimenti eccezionali degli ultimi 8 anni non si ripeteranno nei prossimi 8 anni
- È poco probabile che i portafogli principalmente investiti nell'azionario quotato e in obbligazioni forniscano un profilo di rischio-rendimento interessante. Porre grande attenzione alla diversificazione delle fonti di rendimento:
 - Puntare all'alpha in tutte le sue forme: factor exposure, "hands-on value creation" e idiosyncratic alpha.
 - Ricercare il premio di rischio e illiquidità sui mercati privati
- Considerare i rischi impliciti negli indici basati sulla capitalizzazione (specialmente obbligazionari) in seguito a un periodo di politiche accomodanti delle banche centrali
 - Riposizionamento verso mandati attivi meno vincolati

4. COMPRENDERE I CAMBIAMENTI STRUTTURALI

Large parts of the world are moving through a demographic inflection point

Accelerating pace of technological change

Source: Baillie Gifford

IMPLICAZIONI DI INVESTIMENTO

- Il cambiamento climatico, i trend demografici e l'evoluzione tecnologica avranno implicazioni importanti per gli investitori di lungo termine
- Il cambiamento climatico presenta un rischio materiale per gli asset reali (clima estremo) e un rischio politico per gli asset sensibili all'andamento del carbone. Gli investitori dovrebbero comprendere la loro esposizione a questi rischi
- Quando i baby-boomers andranno in pensione, probabilmente ridurranno i risparmi generando pressione al rialzo nei rendimenti reali
- L'evoluzione tecnologica produrrà vincitori e vinti. Questo dovrebbe creare opportunità per gli investitori long/short. Gran parte degli indici a capitalizzazione di mercato sono esposti alla rivoluzione tecnologica nel tempo
- Le aziende tecnologiche possono scegliere di rimanere per più tempo private rispetto al passato. La remunerazione derivante dal cambiamento tecnologico può quindi andare in gran parte agli investitori nei mercati privati

TEMI CHIAVE MERCER PER IL 2017 E OLTRE

- Verificare la robustezza del portafoglio in scenari negativi
- Considerare coperture “hard” e “soft”
- L'importanza di una politica di copertura dal rischio valutario

- Associare gli impatti sul portafoglio del rischio di inflazione
- Considerare coperture specifiche o asset reali
- Terreno più fertile per le strategie macro?

- Aspettativa di rendimenti più bassi in prospettiva
- Ricercare rendimenti nell'alpha e nei premi di illiquidità e complessità
- Fare attenzione ai rischi racchiusi negli indici a capitalizzazione

- Comprendere l'esposizione al cambiamento climatico
- I trend demografici e tecnologici creeranno vincitori e vinti
- La remunerazione dal cambiamento tecnologico può andare a chi investe nei mercati privati

I PRINCIPALI RISCHI NEL CONTESTO GLOBALE

Global Risks Report: I rischi ambientali e sociali rientrano tra i più rilevanti...

Top 5 Rischi Globali per probabilità

2013	2014	2015	2016	2017
Income disparity	Income disparity	Interstate conflict	Involuntary migration	Extreme weather
Fiscal imbalances	Extreme weather	Extreme weather	Extreme weather	Involuntary migration
Greenhouse gas emissions	Unemployment or underemployment	National governance failures	Weak climate change response	Natural catastrophes
Water supply crisis	Climate change	State collapse	Interstate conflict	Terrorist attack
Ageing population	Cyber attacks	High unemployment	Natural catastrophes	Data fraud

ASSET ALLOCATION SURVEY 2017

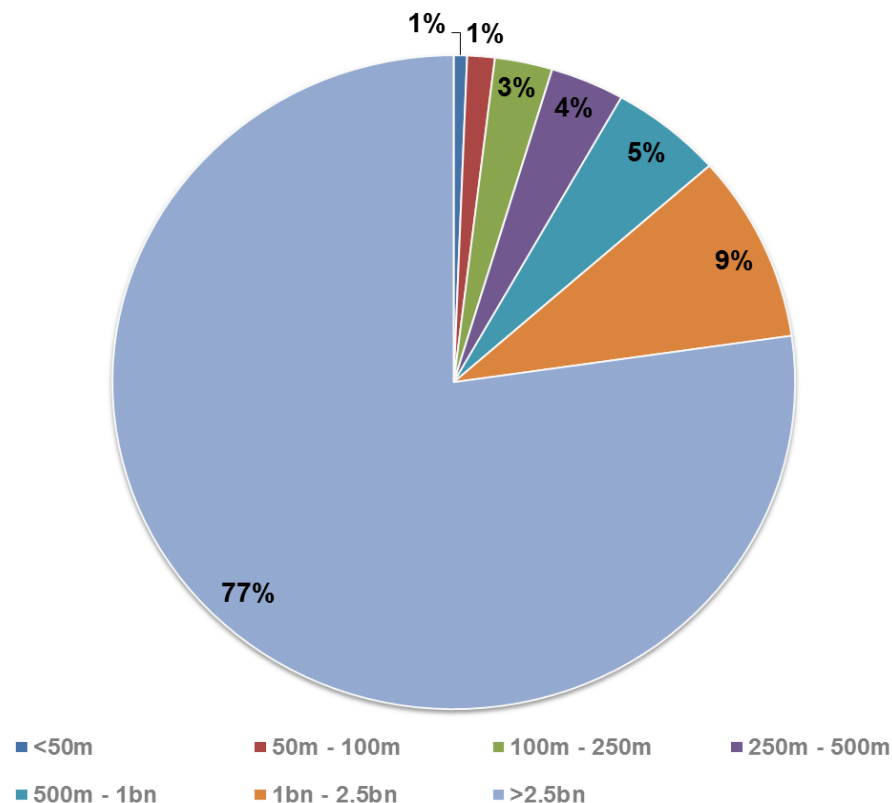

ASSET ALLOCATION SURVEY

- La ricerca analizza le tendenze nell'asset allocation dei grandi investitori istituzionali, in particolare dei fondi pensione europei
- L'edizione 2017 è stata condotta su quasi **1.250 portafogli** istituzionali europei in **13 Paesi** per un totale attività di oltre **1.100 miliardi di euro**

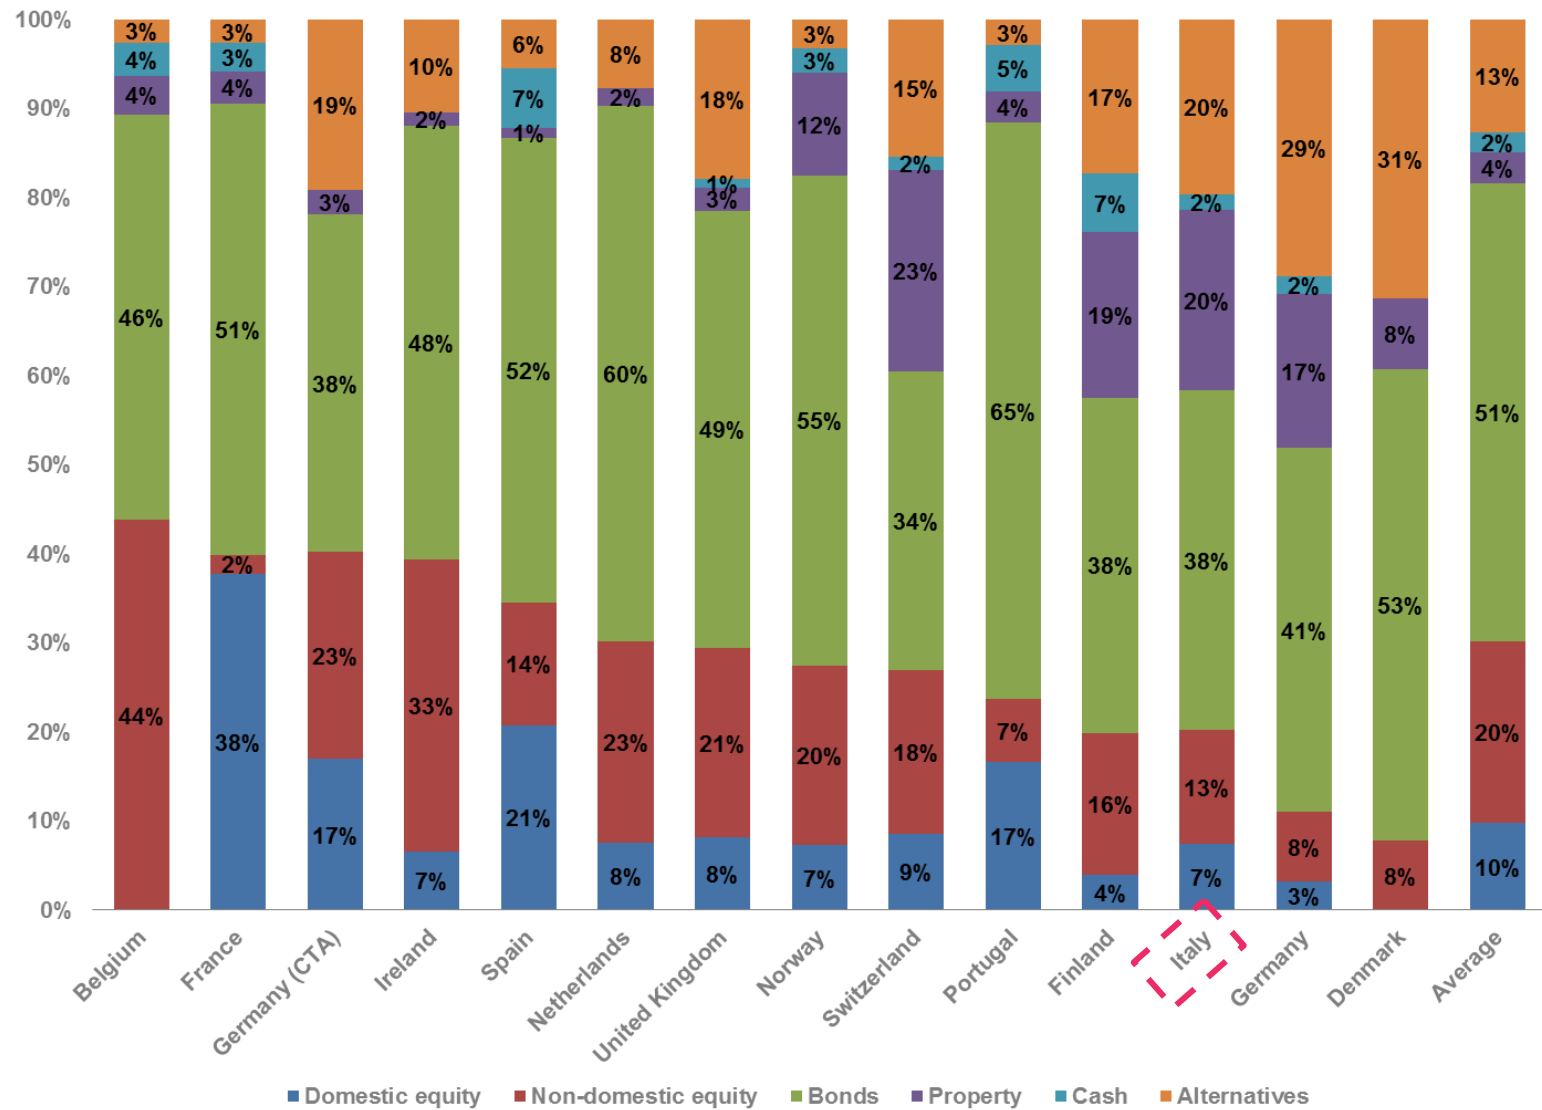

Suddivisione degli asset oggetto di indagine per paese

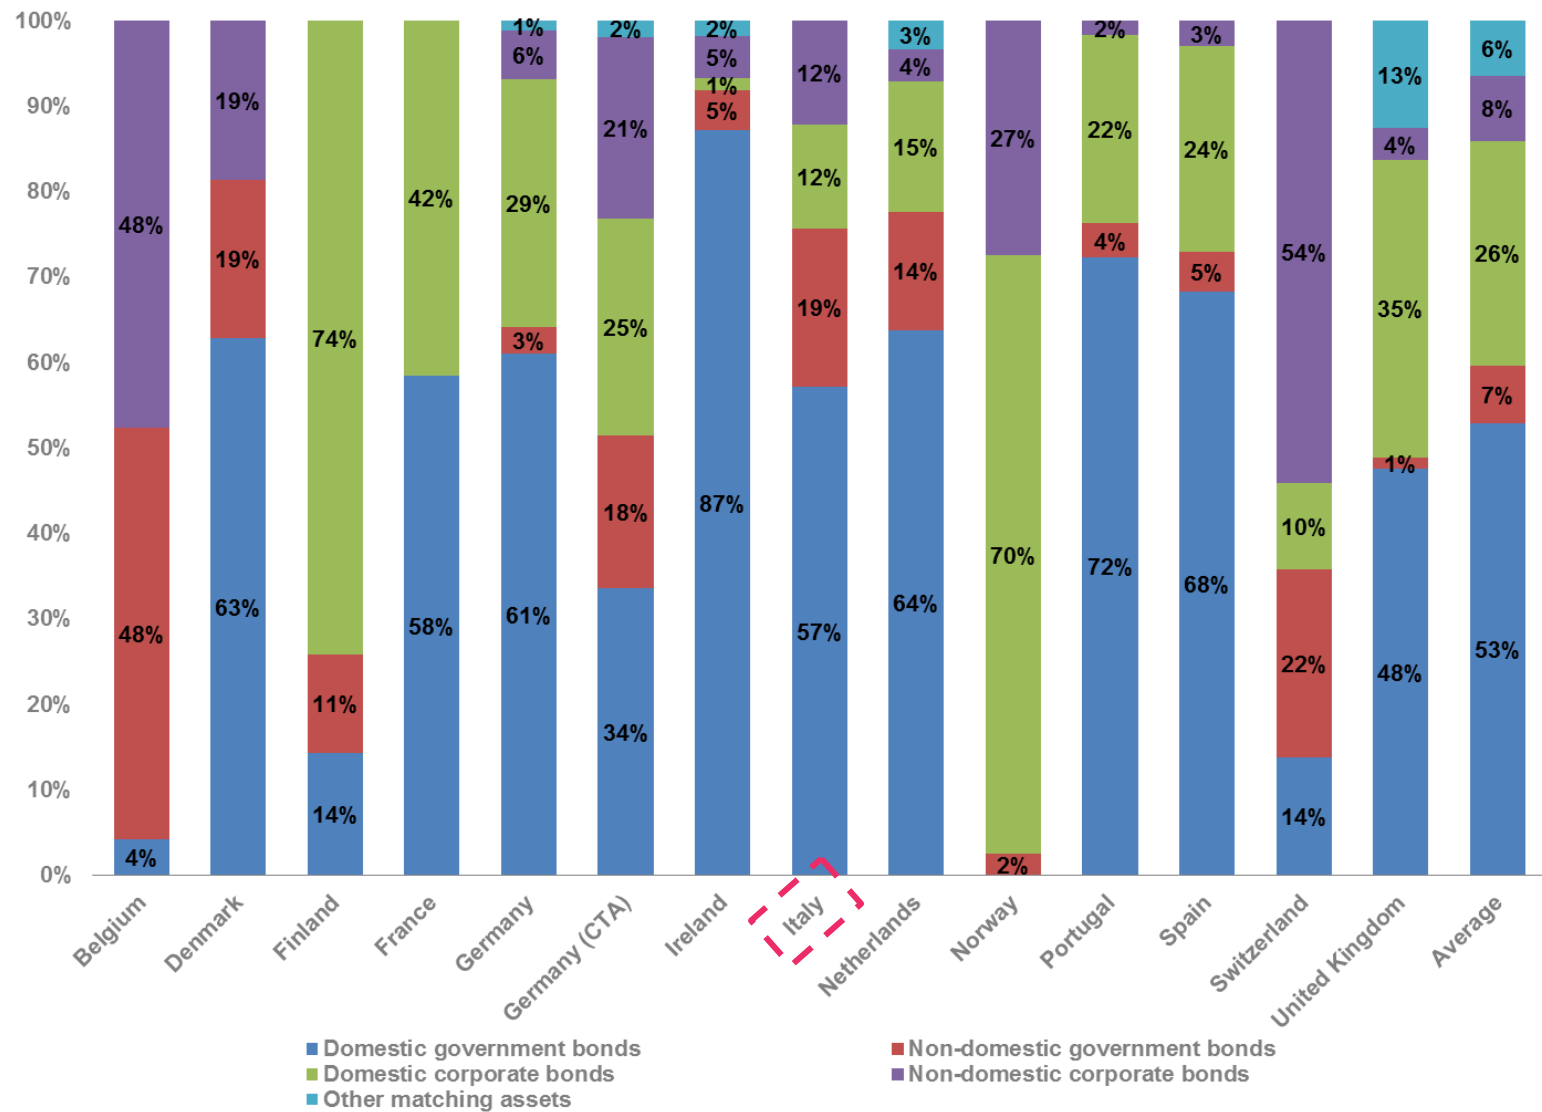

Suddivisione degli asset oggetto di indagine per dimensione del patrimonio dei partecipanti

ASSET ALLOCATION STRATEGICA PER PAESE

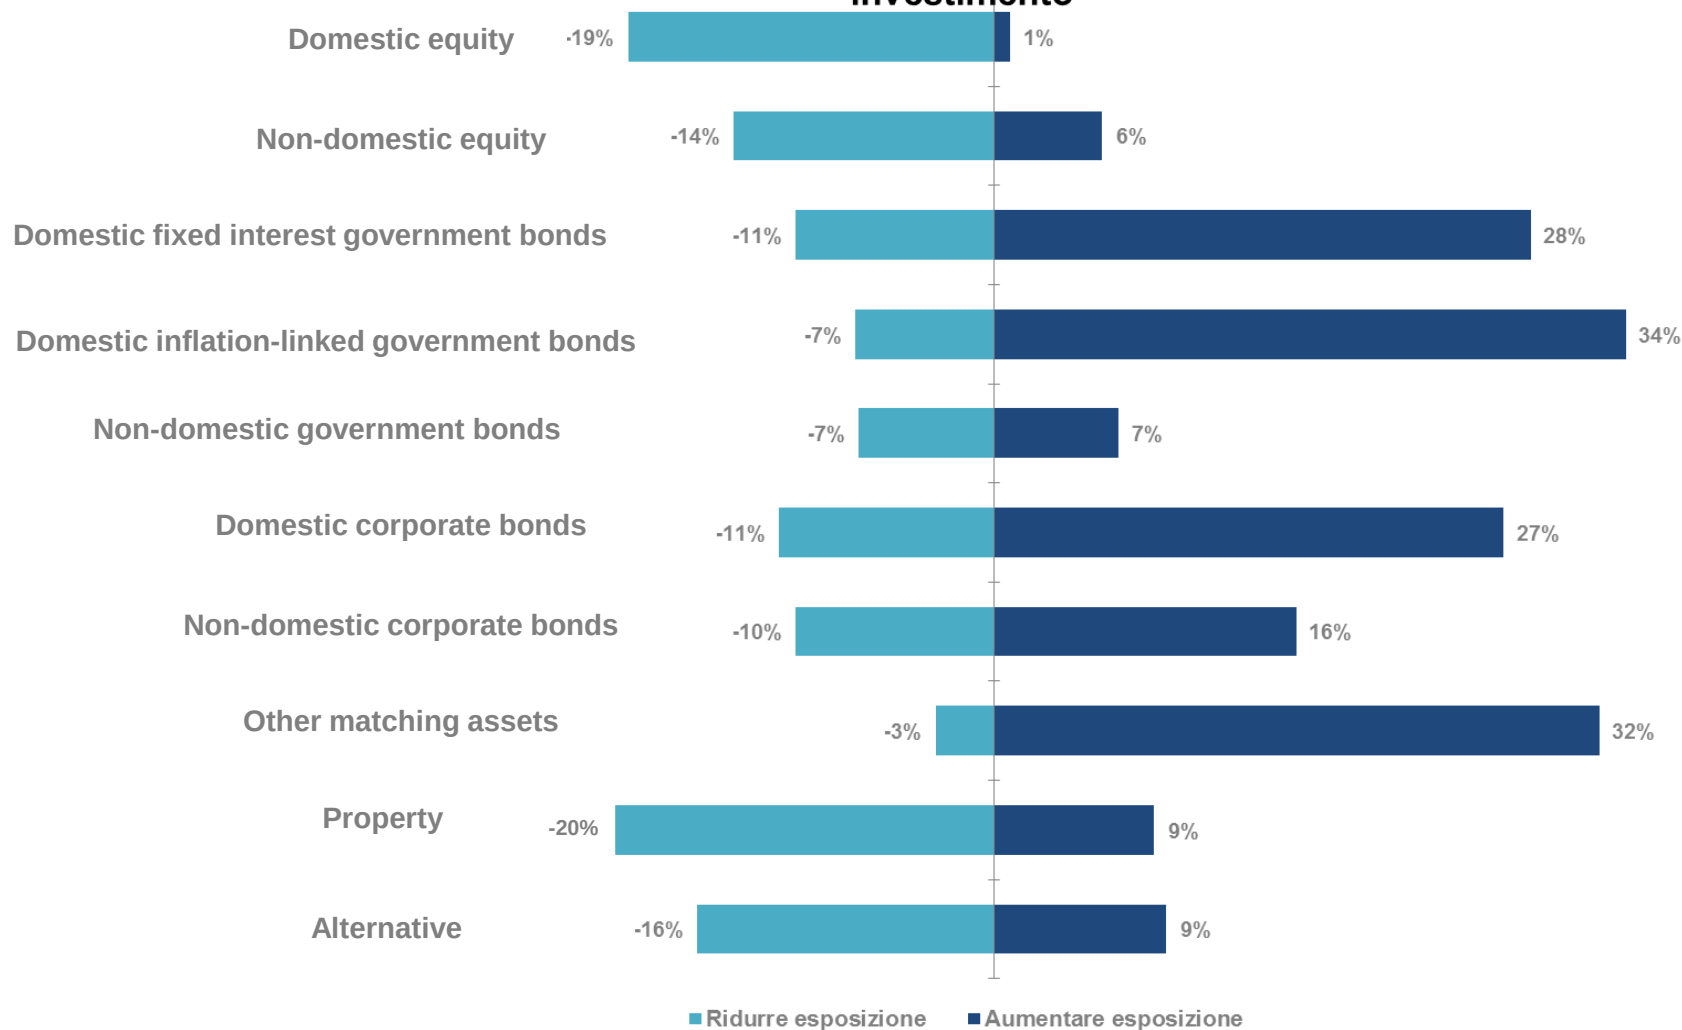

ESPOSIZIONE OBBLIGAZIONARIA

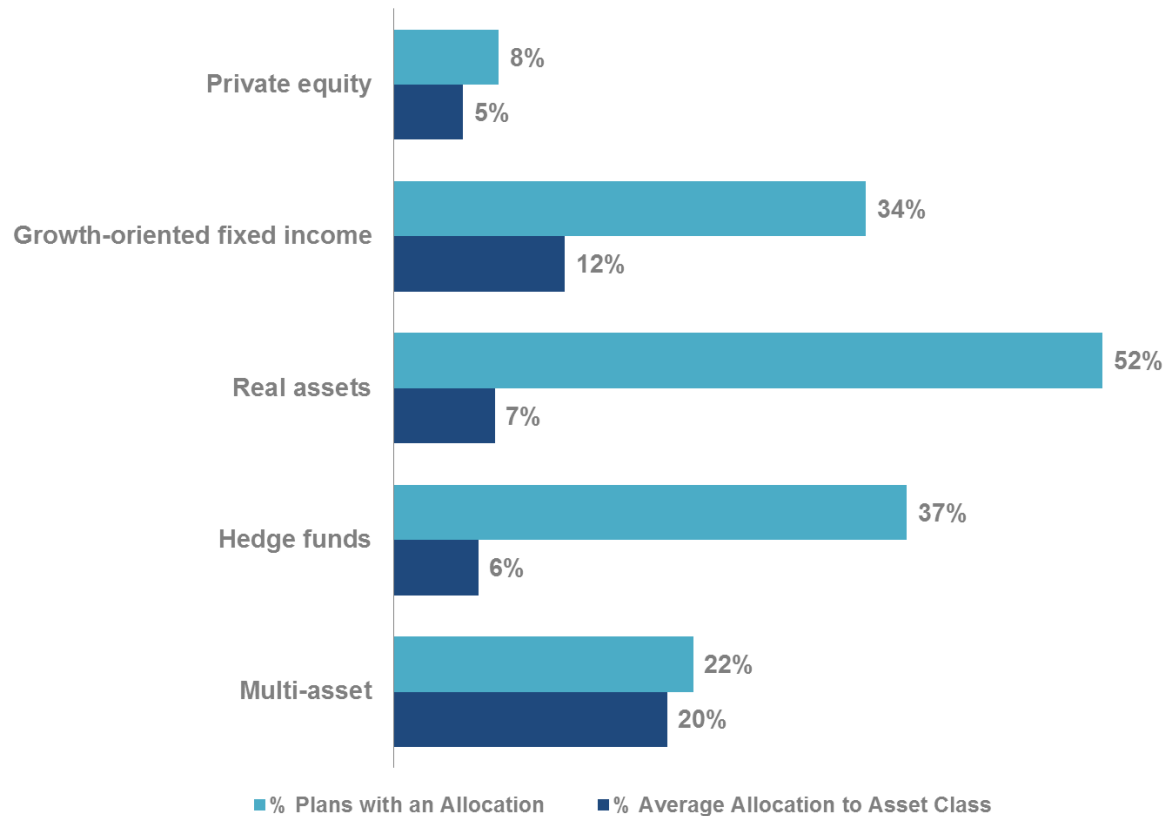

TENDENZE FUTURE DI ASSET ALLOCATION

Percentuale di partecipanti che prevedono di cambiare la strategia di investimento

INVESTIMENTI ALTERNATIVI: LE ALLOCAZIONI

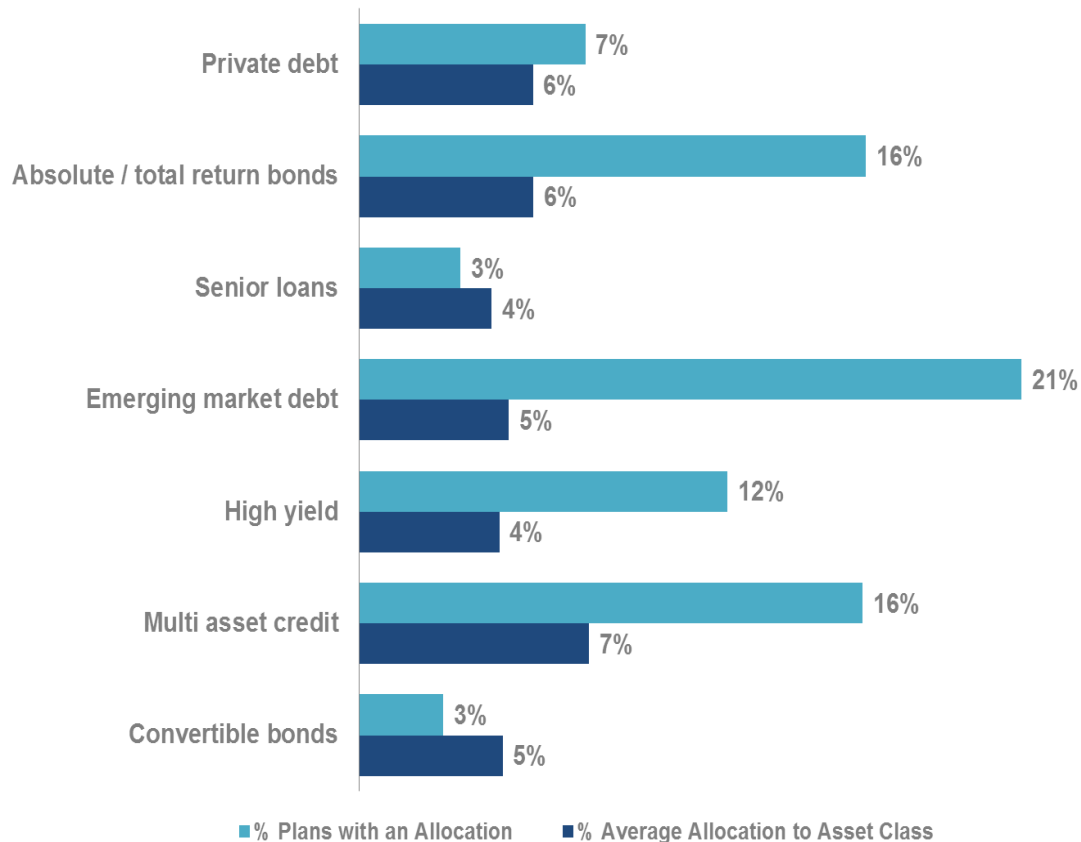

Allocazione su strumenti alternativi per tipologia di asset class

- Le allocazioni medie oscillano tra il 5% del private equity e il 20% delle strategie multi-asset
- Le allocazioni medie di portafoglio su tutte le sottocategorie sono sostanzialmente invariate rispetto all'anno precedente

FOCUS SU STRATEGIE OBBLIGAZIONARIE DIVERSIFICATE

Allocazione strategica componente obbligazionaria growth-oriented

- Si conferma la ricerca della più ampia diversificazione sui portafogli obbligazionari
- Le strategie multi-asset e a rendimento assoluto hanno l'allocazione media maggiore; queste strategie offrono diversificazione e minore direzionalità in un contesto di potenziale rialzo dei tassi di interesse
- Gli investimenti multi-asset credit, absolute return e private debt costituiscono le componenti principali di portafoglio, in linea con l'anno precedente

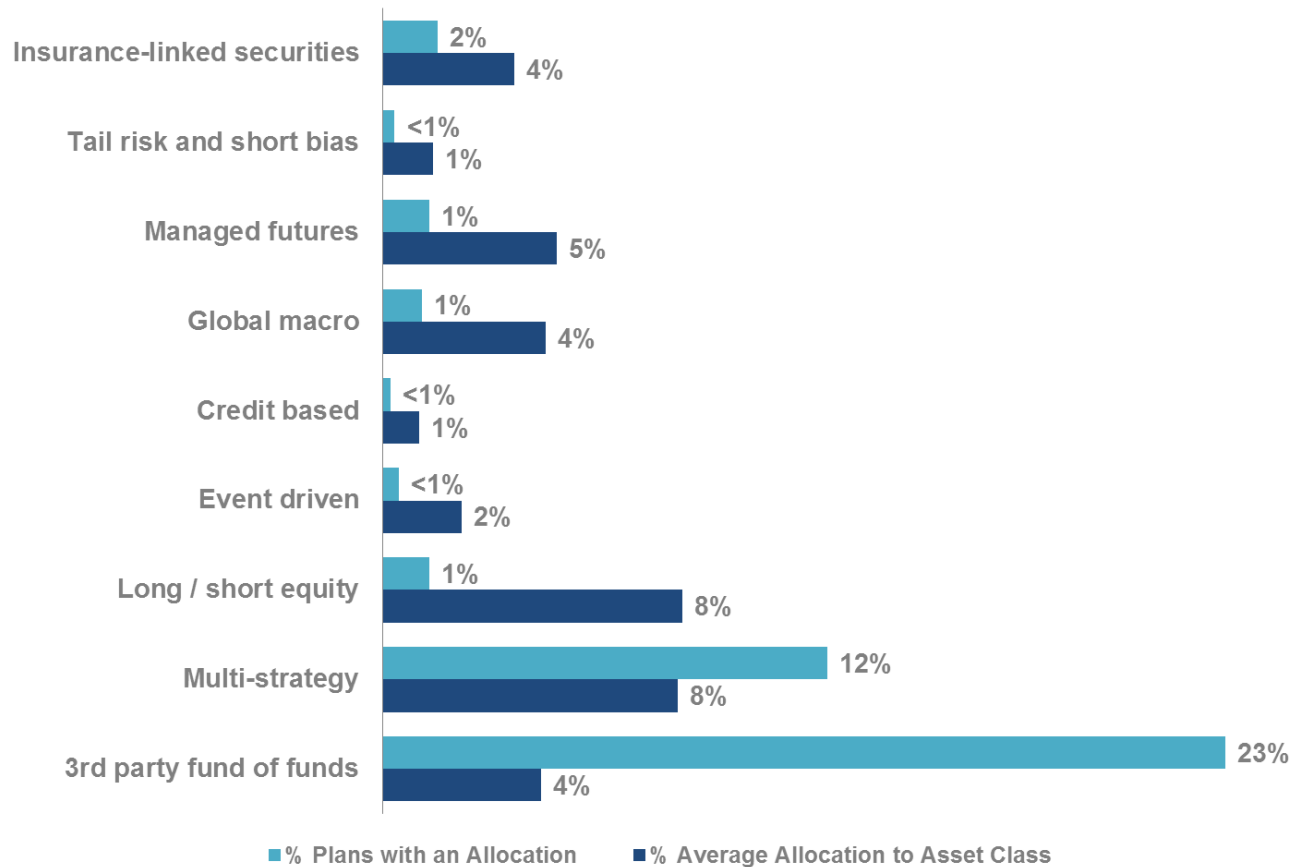

FOCUS SU REAL ASSETS

- Si registra un continuo aumento degli asset reali, anche alla luce del ruolo di diversificazione, decorrelazione e di protezione dall'inflazione
- Rispetto allo scorso anno è aumentata l'allocazione verso il real estate grazie alla componente domestic

FOCUS SU HEDGE FUNDS

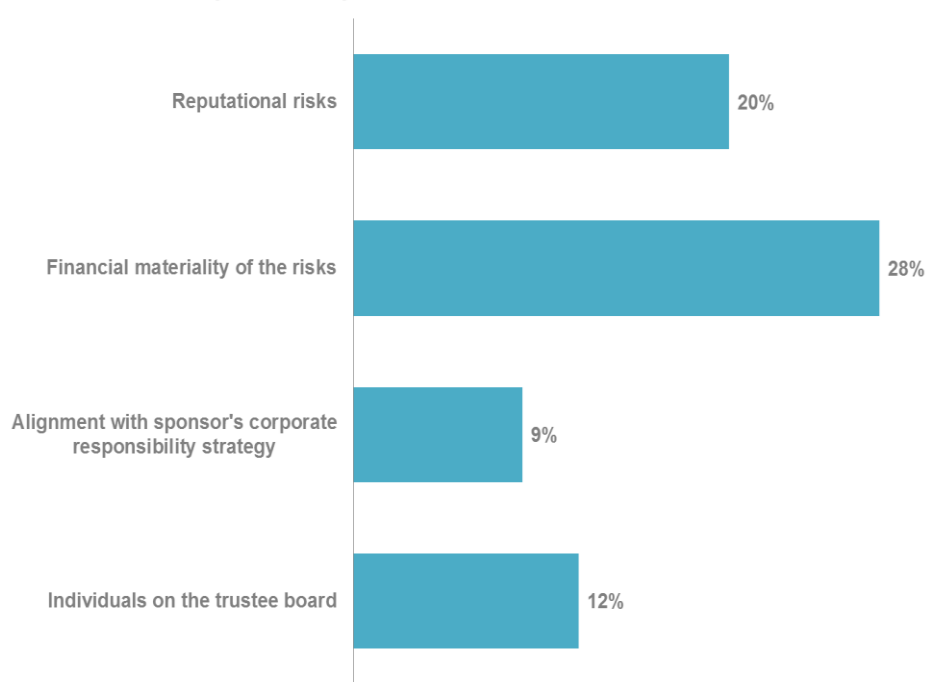

Allocazione strategica in hedge funds

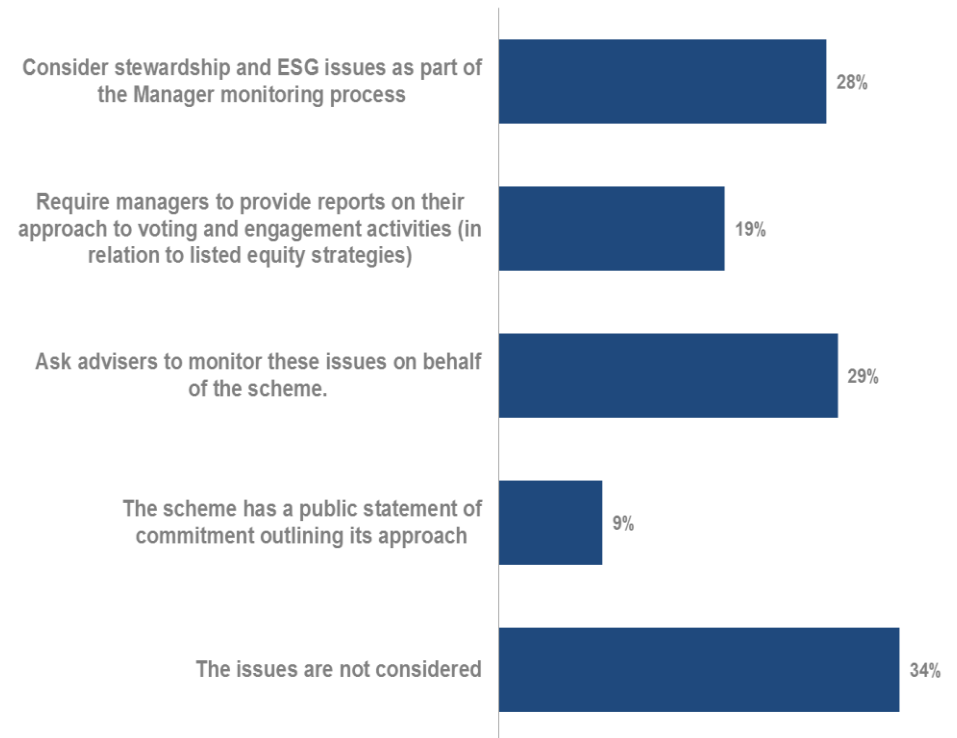

- Gli investitori mantengono una buona diversificazione tra le varie strategie hedge funds
- Long short equity e multistrategy sono le strategie con il peso medio di portafoglio più alto

FOCUS SU ESG (ENVIRONMENT, SOCIAL, GOVERNANCE)

Principali motivi per considerare i fattori di rischio ESG

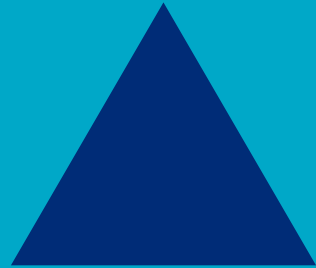

Stewardship nel contesto ESG

- Le conseguenze finanziarie e gli aspetti reputazionali costituiscono i principali elementi chiave per l'integrazione dei fattori ESG nei portafogli
- Solo il 5% del campione considera i rischi connessi al cambiamento climatico come un tema rilevante per gli investimenti

IL CAMPIONE ITALIANO

ASSET ALLOCATION SURVEY IL CAMPIONE ITALIANO 2017

**Da 26 a
70 miliardi**

- ✓ In termini di asset under management il campione italiano 2017 vale più di €70 miliardi
- ✓ Un incremento rispetto al 2016 di più di €44 miliardi

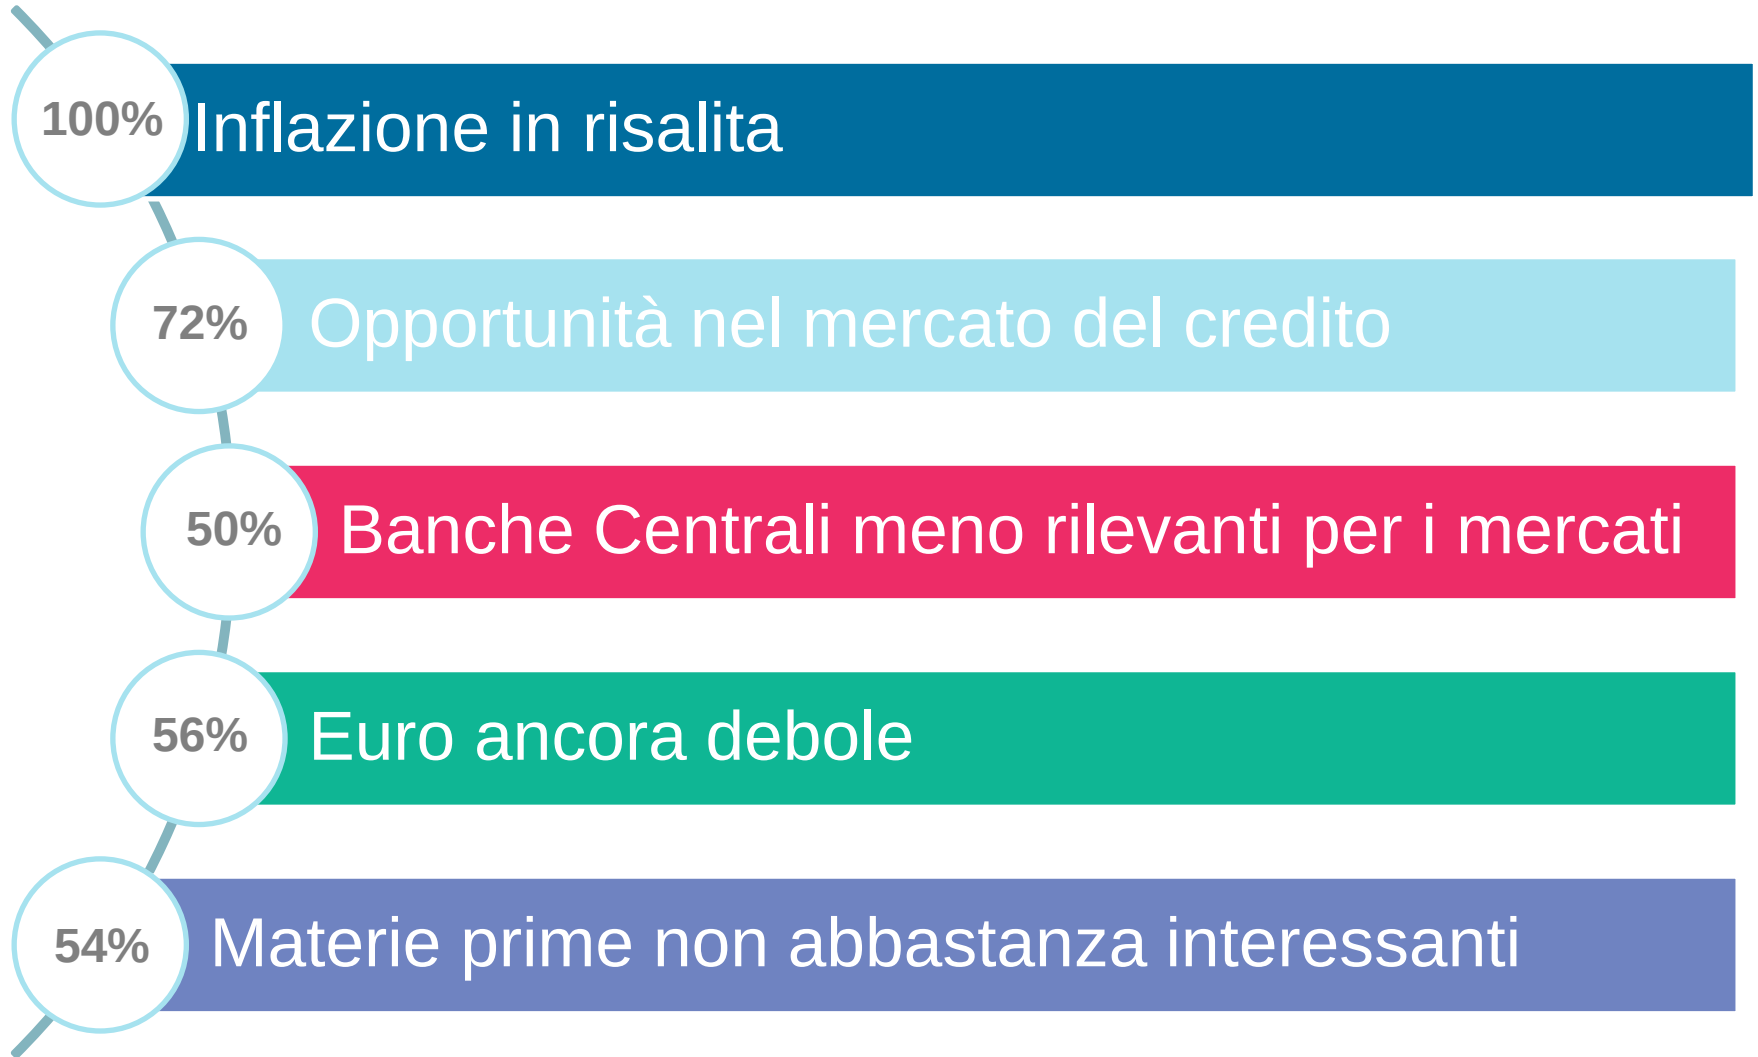

+50%

- ✓ Il numero di partecipanti nel 2017 è aumentato del 50% rispetto al 2016
- ✓ I più importanti investitori istituzionali italiani fanno parte del campione

**Da 1% a
oltre 5%**

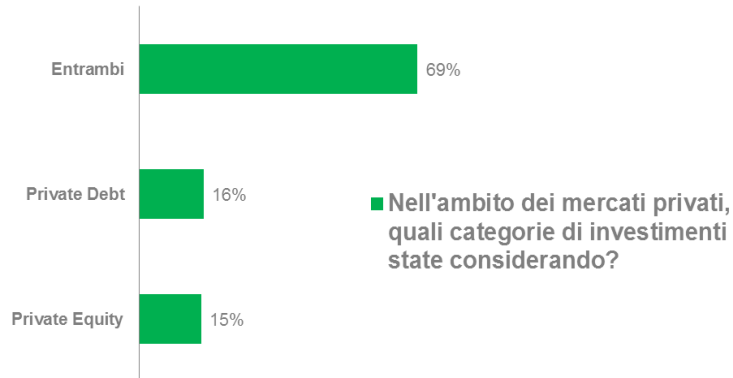

- ✓ La rilevanza dell'Italia nel campione europeo è cresciuta notevolmente
- ✓ Il campione italiano 2017 è il quinto più rappresentativo in termini di asset under management

ASPETTATIVE SUI TASSI D'INTERESSE 2017 VS 2016

INFLAZIONE E SCELTE D'INVESTIMENTO

2017 VS 2016

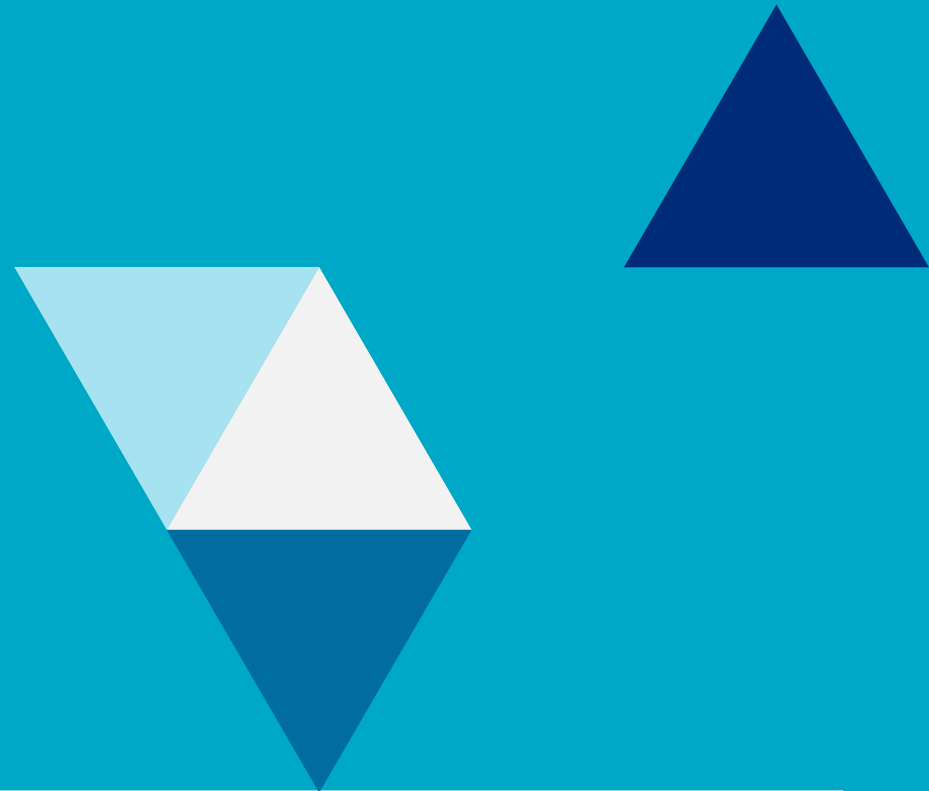

IL CAMPIONE ITALIANO

PRINCIPALI TENDENZE 2017 VS 2016

1. L'aspettativa di un **aumento dell'inflazione** nel corso del 2017 è comune a tutti gli investitori istituzionali italiani partecipanti al sondaggio, mentre nel 2016 solo il 14% si attendeva un incremento nel corso dell'anno
2. Alla luce delle valutazioni di mercato e dei miglioramenti nei fondamentali economici, i **Paesi Emergenti** sembrano un'opportunità interessante per circa il 70% degli investitori istituzionali, contro il 30% dell'anno scorso
3. In ascesa anche i **mercati privati**: il premio di illiquidità, la diversificazione delle fonti di rendimento e la bassa correlazione con i mercati tradizionali hanno fatto crescere l'appetibilità di questa asset class rispetto allo scorso anno (72% nel 2017 vs 29% nel 2016)
4. Gli **asset reali** guadagnano interesse tra gli investitori istituzionali che, in virtù del ruolo di diversificazione, de-correlazione e protezione dall'inflazione, stanno considerando sempre più di inserirli in portafoglio (60% 2017 vs 30% 2016)
5. Buone notizie sul tema **ESG**, dal momento che il 50% del campione dichiara di integrare le tematiche proprie degli investimenti responsabili nel processo d'investimento, rispetto al 36% del 2016

CONCLUSIONI

COSTRUIRE UN PORTAFOGLIO ROBUSTO LE IDEE DI MERCER

Un approccio *absolute return* nel mercato obbligazionario

- ✓ Approccio flessibile e dinamico
- ✓ Rendimenti positivi in tutte le fasi di mercato
- ✓ De-correlare l'esposizione obbligazionaria dall'andamento di mercato del reddito fisso
- ✓ Strategie interessanti in assenza di opportunità «a buon mercato»

Ricerca il premio di illiquidità nei *private markets*

- ✓ Gestione attiva da parte di gestori qualificati
- ✓ Diversificare l'esposizione al rischio dei mercati tradizionali
- ✓ Opportunità di investimento non accessibili attraverso i mercati pubblici
- ✓ Premio di illiquidità

COSTRUIRE UN PORTAFOGLIO ROBUSTO LE IDEE DI MERCER

È arrivato il momento degli *hedge funds*?

- ✓ Indipendenza rispetto ai trend dei mercati tradizionali
- ✓ Protezione del portafoglio nelle fasi di ribasso del mercato
- ✓ Gestione dinamica del portafoglio
- ✓ Sovra-performance in momenti di alta dispersione di rendimenti

Inserire i *real asset* in un portafogli istituzionale

- ✓ *Hedging* dal rischio di inflazione
- ✓ De-correlazione rispetto alle asset class tradizionali
- ✓ Interessanti prospettive di rendimento a livello globale
- ✓ L'oro come scudo nelle fasi di forte volatilità sui mercati

SUMMARY INVESTMENT DUE DILIGENCE

ABC is a well-established pan-European buyout firm with a stable team and experienced Partners with a long tenure. The proven investment strategy achieved overall strong realized returns across larger markets, that represents and invested industry leaders. In Mercer's view, ABC has the credentials to continue outperforming its peers and to generating attractive returns in a competitive market environment. Therefore, Mercer recommends making a commitment to ABC VI, subject to a satisfactory outcome of the legal due diligence.

LEGAL & TAX REVIEW

~20 page report

MERCER LEGAL & TAX REVIEW

3. Fund Governance

3.1 Voting

Fund an affiliate voting with the exception of LPA 13.1 (LP amendments), but only to the extent such amendment, waiver or modification is reasonably necessary or advisable to address tax, regulatory or legal restrictions or other similar considerations applicable to the partnership and generally not applicable to a parallel fund (LPA 13.1).

3.2 Removal for Cause

[Text]

Remuneration

Management Fee: The appointment of the Management Company and the right of the Management Company to remove the Management Fee shall terminate upon the removal of the General Partner unless and until a replacement general partner is appointed (LPA 5.3.1).

Carried Interest: The outgoing General Partner shall thereafter be entitled to receive all carried interest distributions as if it is a limited partner in the Partnership. (i) materially violating federal or state securities law, (ii) engaging in fraud or self-dealing, (iii) being grossly negligent, (iv) knowingly disregarding their duties, or (v) the General Partner materially violating the LPA, where such violation has not been cured within 60 days after the delivery of written notice to the General Partner (in each case within 120 days of the first event determination or violation (LPA 5.3.4)).

Event Voting: A majority in interest of LPs may remove and replace the General Partner upon (i) a final court determination by a court of competent jurisdiction of (a) Cause or (b) the General Partner, an Approved Partner or an Approved Executive Officer (AO) violating a law with a material adverse effect on the Partnership, (ii) materially violating federal or state securities law, (iii) engaging in fraud or self-dealing, (iv) being grossly negligent, (v) knowingly disregarding their duties, or (vi) the General Partner materially violating the LPA, where such violation has not been cured within 60 days after the delivery of written notice to the General Partner (in each case within 120 days of the first event determination or violation (LPA 5.3.4)).

Mercer Comment: It is appropriate and increasingly common for the relevant GP to take a haircut on its entitlement to carried interest following a removal for cause. Mercer hereby requests a haircut of 20% on the carried interest from investments made by the time of the removal.

Answer: 1. Not done
2. Not done
3. Not done
4. The requirements of LPA 5.3.4 (material violation of the LPA) are not met. Mercer hereby requests a haircut of 20% on the carried interest from investments made by the time of the removal.

OUR INVESTMENT PHILOSOPHY

MANAGER SELECTION

Manager selection is a key differentiator given the large universe of managers (interesting trends do not compensate for a rigorous “bottom-up” analysis)

EXPERIENCE

Investment talent is rare – we back experienced teams whose investment capabilities are supported by a verifiable track record

ALIGNMENT OF INTEREST

MPM prefers directly aligned teams that can invest autonomously

DIVERSIFICATION

Diversification across vintage years, regions, sectors and investment types is a key element of MPM’s portfolio build-up

FOCUS

Focus on operational value creation that generates real, tangible, long-lasting value

HOW WE ADD VALUE

SAVINGS THROUGH SCALE & BUYING POWER

BUYING POWER

Assets under advice USD 10.2trn
(Mercer Investments)
Assets under management USD 22bn globally
(Mercer Private Markets)

INTELLECTUAL CAPITAL VIA SPECIALIST TEAMS

SPECIALIST TEAMS

Who support wealth managers, pension, charity,

Note: The funds labeled Mercer have been launched under the SCM brand prior to the acquisition of SCM in early 2015.

* Vintage year based on 1st closing date

** Fully liquidated as of Q1 2014

*** The 2013-14 vintage year performance is too early to provide a good indication; performance driven by discounts on NAV or "j-curve" effects

SENIOR MANAGEMENT

BILL MUYSKEN

Global CIO Alternatives

Joined in 1992, Bill is Global Chief Investment Officer for Alternatives of Mercer Investments.

Prior to rejoining Mercer, Bill had previously been with Mercer Investments as Global Head of Manager Research, and from 2003 onwards as Global Head of Research. In 2003 Bill was named European Investment Consultant of the Year by Global Money Management magazine.

Bill spent a 3 ¼ year period between his two stints at Mercer as a portfolio manager in Thames River Capital's Multimanager Alternatives team.

Prior to joining Mercer, Bill had worked for the Australian Government in Canberra and for Prudential Assurance in Sydney.

Bill holds a Bachelor's degree in Actuarial Studies from Macquarie University, Sydney, Australia.

DR. STEFAN HEPP

**Global Business Leader
Private Markets**

Joined in 1996, Stefan is Global Business Leader of Mercer Investments' Private Markets Group.

Until the merger with Mercer Stefan was Founder and Chief Executive Officer of SCM Strategic Capital Management AG (now part of Mercer's Investments business).

Previously, he was Executive Director and member of the management committee with Morgan Stanley AG in Zurich, and prior to that with Morgan Stanley Dean Witter in London, J.P. Morgan in Zurich, and Salomon Brothers Int. in London.

Stefan earned a Ph.D. in economics from the University of St. Gallen (HSG), Switzerland, holds a Master's degrees in business administration from Chicago Graduate School, USA, and in social sciences from Birmingham Graduate School, UK.

RALPH AERNI

**Global Co-CIO
Private Markets**

Joined in 2003, Ralph is Global Co-Chief Investment Officer of Mercer Investments' Private Markets Group.

Until the merger with Mercer Ralph was a Partner and Chief Investment Officer at SCM Strategic Capital Management AG (now part of Mercer's Investments business).

Before joining SCM, he was a Senior Analyst Fund Investments with Swiss Life Private Equity Partners AG and prior to that with Bank Vontobel AG.

He started his career in the Corporate Banking division of UBS and subsequently as Corporate Secretary of Cantrade Privatbank AG.

Ralph holds a degree in business administration from the HWZ University of Applied Sciences Zurich, Switzerland, and participated in an Executive Management program at INSEAD, Fontainebleau, France.

MICHAEL FORESTNER

**Global Co-CIO
Private Markets**

Joined in 2003, Michael is Global Co-Chief Investment Officer of Mercer Investments' Private Markets Group.

Prior to joining Mercer, Michael spent 2 years as Managing Director of EndPoint Capital, LLC, a SEC-registered investment advisor.

Prior to EndPoint, Michael worked for 4 years as a Principal Trust Analyst at Southern Company Services.

Previously, he was an Equity Analyst/Trader for Equity Investment Corporation, a mid-cap value equity money manager.

Michael holds a Master's degree in business administration from the University of Georgia, USA, with an emphasis in finance. He is a CFA Charterholder and a member of the CFA Institute and the St. Louis Society of Financial Analysts.

SENIOR MANAGEMENT

CHRISTOPH BIGGER

**Global COO
Private Markets**

Joined in 2014, Christoph is Global COO of Mercer Investments' Private Markets Group.

Until the merger with Mercer Christoph was a Partner and COO at SCM Strategic Capital Management AG (now part of Mercer's Investments business).

Previously, Christoph was a member of the management committee at SIX Group, responsible for the operation of the Swiss Stock Exchange.

Prior to that he worked several years in leading positions at Bank Leu, Credit Suisse First Boston, Clearstream Banking Luxembourg, DAB Bank in Munich and Paris.

Christoph holds a Master's degree in law from the University of Fribourg, Switzerland, and is a Swiss qualified lawyer.

HARRY LEGGAT

**Head of Private Equity / Debt
North America**

Joined in 2007, Harry is Head of the North American Private Equity investment team of Mercer Investments' Private Markets Group.

Prior to joining Mercer/Hammond Associates, Harry spent 3 years as Vice President of Asset Consulting Group, Inc. where he was responsible for directing research and due diligence activities.

Previously, Harry was a Principal of RCP Advisors, LLC, a mid-market buyout focused fund of funds manager, and prior to that, Harry was a Senior Consultant in the Mergers & Acquisitions Practice at Aon Group and a Senior Consultant at Ernst & Young, LLP.

Harry holds a Master's degree in business administration from Washington University, USA, and a Bachelor of Arts in economics from the University of Pennsylvania, USA.

DIRK LIENEMANN

**Head of Private Equity / Debt
Europe**

Joined in 2006, Dirk is Head of the European Private Equity investment team of Mercer Investments' Private Markets Group.

Until the merger with Mercer Dirk was a Partner and Head of Investment Management at SCM Strategic Capital Management AG (now part of Mercer's Investments business).

Before joining SCM, he worked 5 years as member of a leading corporate finance / M&A team in Switzerland for various employers (Andersen, Ernst & Young and finally Sal. Oppenheim Corporate Finance).

Dirk holds a Master's degree in business administration and economics from the University of St. Gallen (HSG), Switzerland, and studied at the Copenhagen Business School, Denmark. He is a CFA Charterholder.

TOBY BUSCOMBE

Global Head of Infrastructure

Joined in 2011, Toby is Global Head of the Infrastructure investment team of Mercer Investments' Private Markets Group.

Prior to joining Mercer, Toby was a Partner and Director at Access Capital Advisers, leading the firm's Infrastructure Group UK & Europe. Toby established Access' London office and led a team of investment professionals in sourcing, due diligence and execution of investments and divestments in infrastructure, hybrid private equity and credit across the UK and Europe.

Previously, Toby was an economist with the New Zealand Department of Labour.

Toby holds a first class honors degree in economics from the Australian National University, Canberra, and is a CFA Charterholder.

SUSTAINABLE INVESTMENT AND ESG

OUR SUSTAINABILITY HERITAGE

13
SPECIALISTS

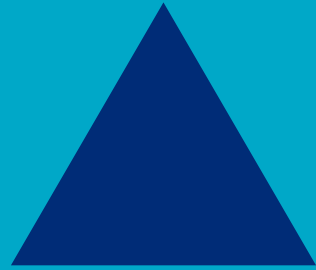

2004

Proven thought leader across RI themes

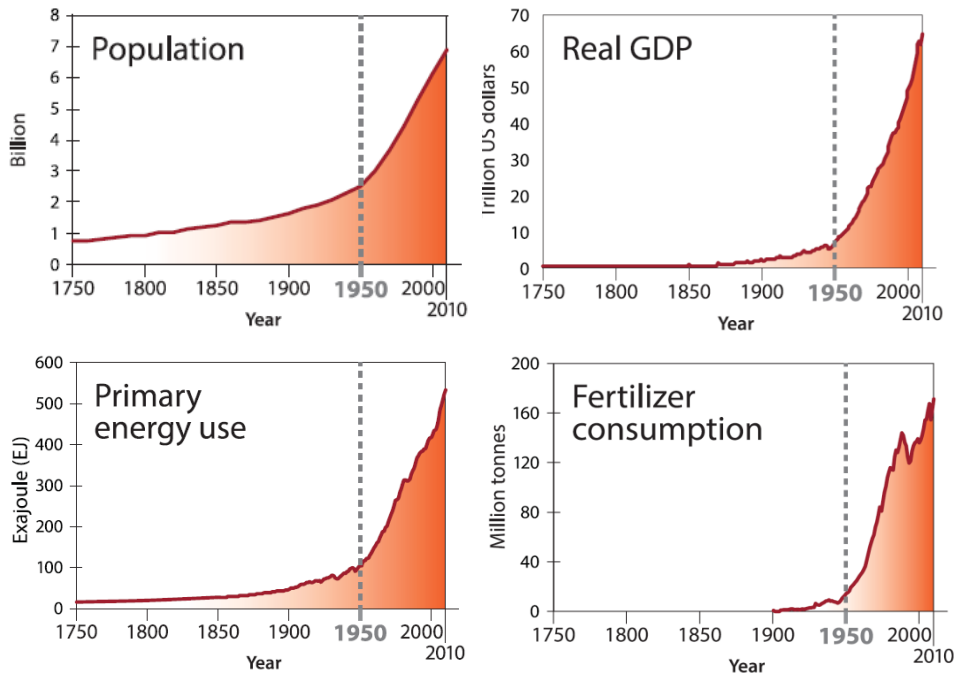

ENVIRONMENTAL, SOCIAL AND GOVERNANCE ISSUES – RESPONSIBLE INVESTMENT

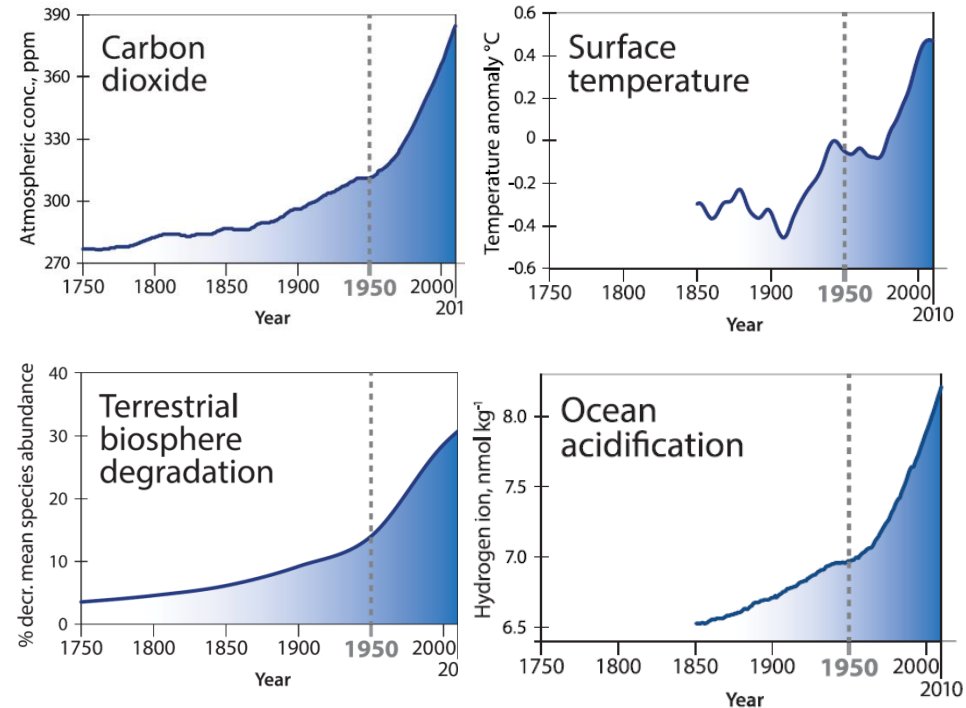

THE BIG PICTURE

UNDERSTANDING HOW THE WORLD IS CHANGING

Socio-Economic trends (1750 – 2010)

Earth system trends (1750 – 2010)

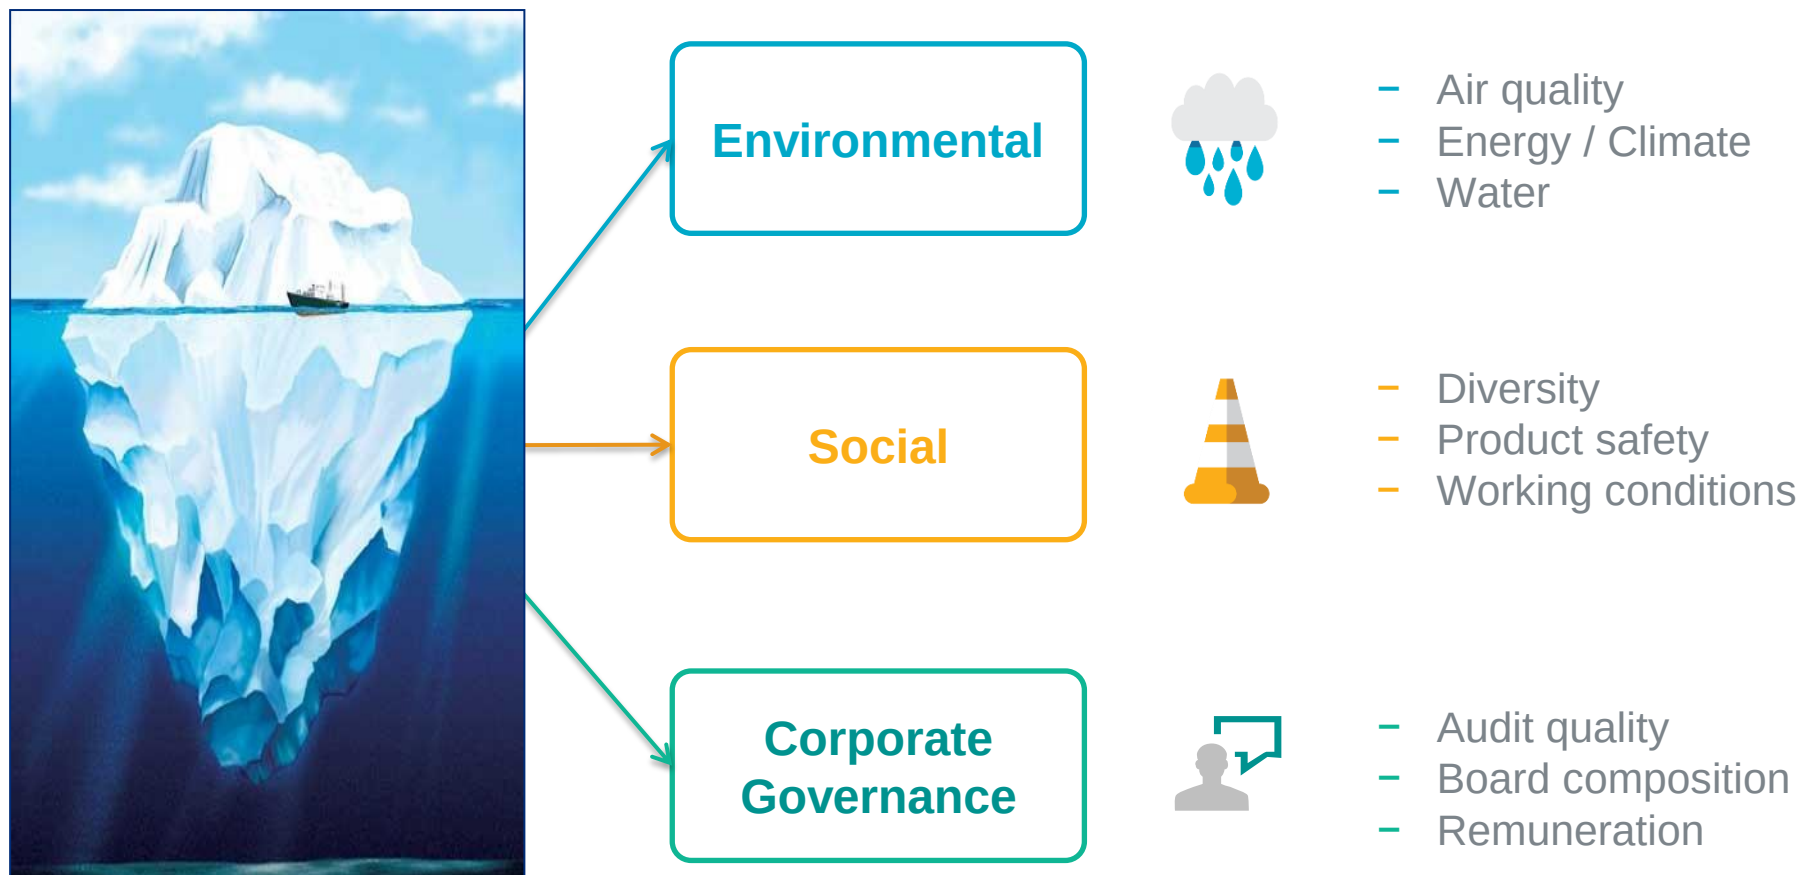

Source: Steffen et al (2015)

Responsible Investment is not about changing the world, it's about understanding how the world is changing and how companies will be affected.

RESPONSIBLE INVESTMENT – AN OVERVIEW

FROM GLOBAL RISKS TO ESG ISSUES

A broader perspective on risk

RISK, RETURN AND DIVERSIFICATION

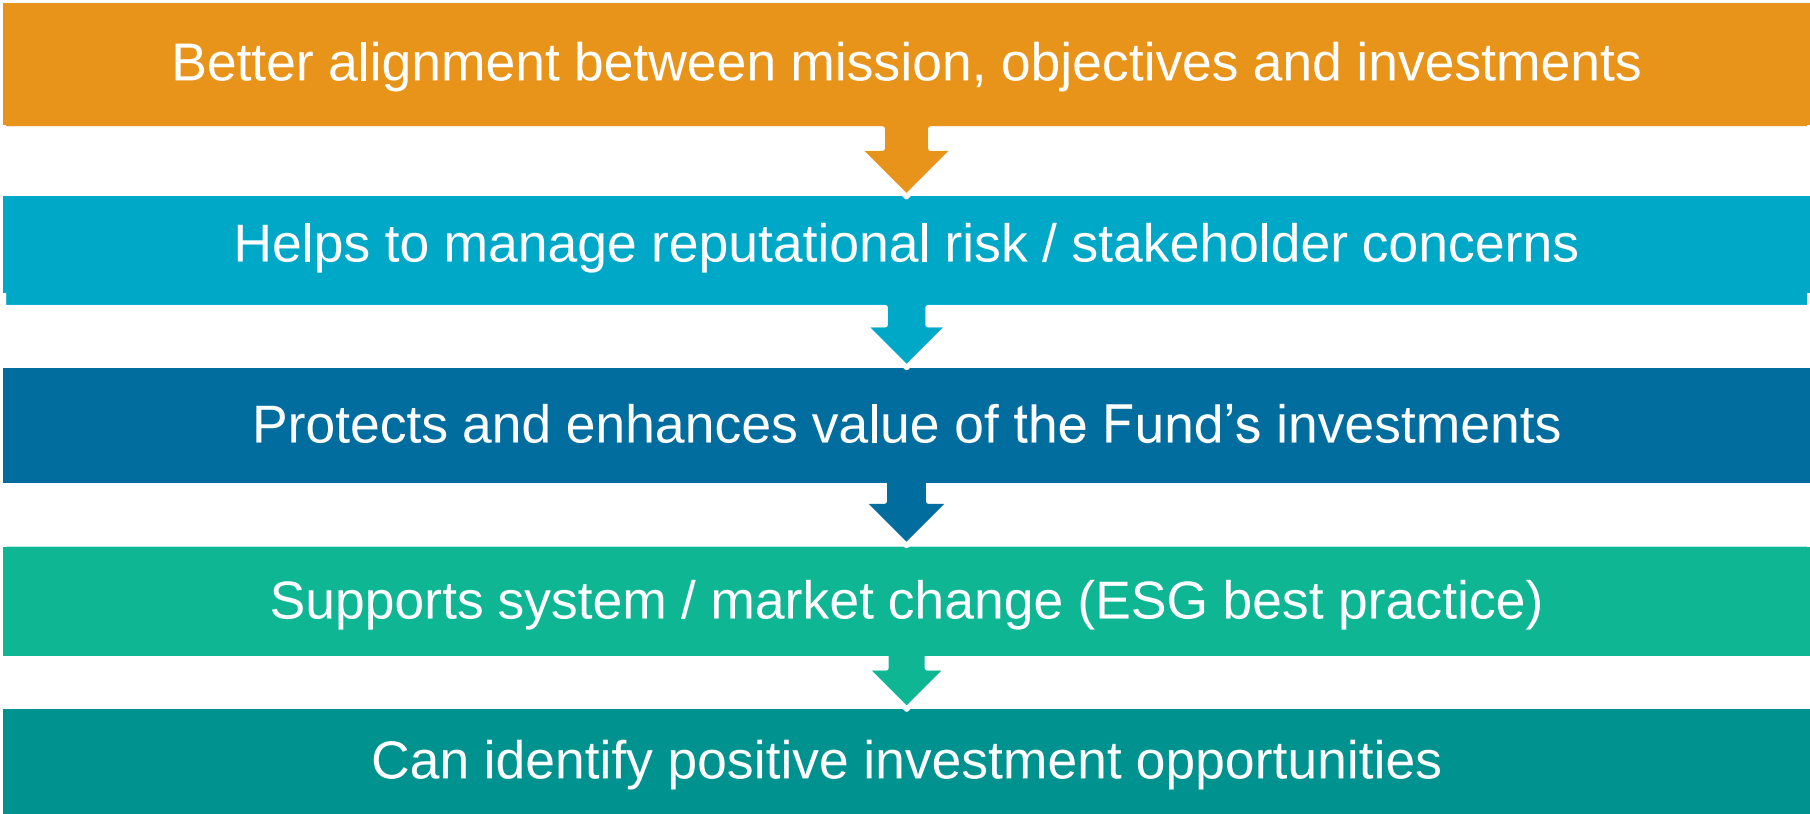

WHAT DO WE MEAN BY “RISK”?

RESPONSIBLE INVESTMENT – AN OVERVIEW

RATIONALE FOR ADOPTING AN RI APPROACH

Better alignment between mission, objectives and investments

```
graph TD; A[Better alignment between mission, objectives and investments] --> B[Helps to manage reputational risk / stakeholder concerns]; B --> C[Protects and enhances value of the Fund's investments]; C --> D[Supports system / market change (ESG best practice)]; D --> E[Can identify positive investment opportunities];
```

Helps to manage reputational risk / stakeholder concerns

Protects and enhances value of the Fund's investments

Supports system / market change (ESG best practice)

Can identify positive investment opportunities

RESPONSIBLE INVESTMENT – AN OVERVIEW

AN EVOLVING AREA

Ethical Investment

- An investment philosophy guided by moral values, ethical codes or religious beliefs.
- Traditionally associated with **negative screening** or **exclusions**.

Socially Responsible Investment (SRI)

- An investment process that seeks to achieve social and environmental goals alongside financial objectives.
- Often employs a **‘best in class’** approach.

Responsible Investment (RI)

- Using information on environmental, social and corporate governance (ESG) issues to better understand risks and opportunities.
- Based on the belief that **ESG information** can be “material” (i.e. have an impact on financial performance).

Selecting the right approach for the Endowment:

What are the trustees trying to achieve?

What resources are available to you?

RESPONSIBLE INVESTMENT – AN OVERVIEW

A RANGE OF IMPLEMENTATION APPROACHES

INTEGRATION

- Include ESG information in investment analysis / decisions.

Objective:

Broader perspective on risk / opportunity.

STEWARDSHIP

- Exercise active ownership / stewardship (voting and engagement).

Objective:

Better behaviour (e.g. by companies).

THEMED

- Invest in “sustainability” and/or “impact” themes (e.g. renewable energy, health, education, social enterprises).

Objective:

Returns from long-term trends + Positive impact.

SCREENING

- Avoid negatives: tobacco, controversial weapons.
- Include positives: ‘best-in-class’.

Objective:

Alignment of Mission / Values.

Selecting the right approach— many investors combine approaches

- What are the trustees trying to achieve?
- What resources are available to you?

REGULATION AND FIDUCIARY DUTY

ESG AND CLIMATE CHANGE DEVELOPMENTS

The **Task Force on Climate-Related Financial Disclosures (TCFD)**, a global industry-led body, is soon to present a new framework for disclosing climate-related risk and opportunity management across Governance, Strategy, Risk Management, and Metrics / Targets.

- The framework applies to asset owners, asset managers and companies and is anticipated to become a new best-practice industry standard (PRI reporting will be consistent in Q1 2018).
- It will be presented to the G20 in July and may become a regulated expectation, noting Mark Carney and the UK Financial Stability Board instigated the Task Force.

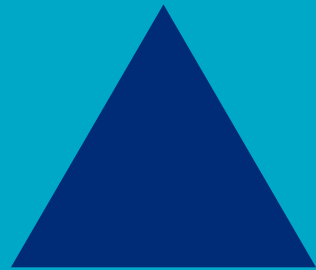

- **Other developments include:**

- **The European Parliament** revised the European pension fund directive in November 2016, enshrining ESG provisions, including climate change risk assessments, into European Union law – IORP2.
- The **Center for International Environmental Law and Mercer** published the *‘Trillion Dollar Transformation: Fiduciary Duty, Divestment and Fossil Fuels in an Era of Climate Risk’* in December 2016, on how climate change may affect the fiduciary obligations of trustees.

PORTFOLIO STRATEGY

CLIMATE CHANGE AND SUSTAINABILITY THEMES

CLIMATE IMPACT ON RETURNS

FOUR KEY FINDINGS ON FUTURE POSSIBILITIES

1. Climate change will have an impact regardless of scenario.
2. Potential sector impacts are most meaningful – particularly over the next 10 years.
3. Asset class impacts can also be material – and vary by climate scenario.
4. A 2°C (Transformation) scenario need not harm total diversified portfolio returns out to 2050.

*Commissioned by 16 investors representing
\$1.5trillion in AUM*

www.mercer.com/climate-change-study

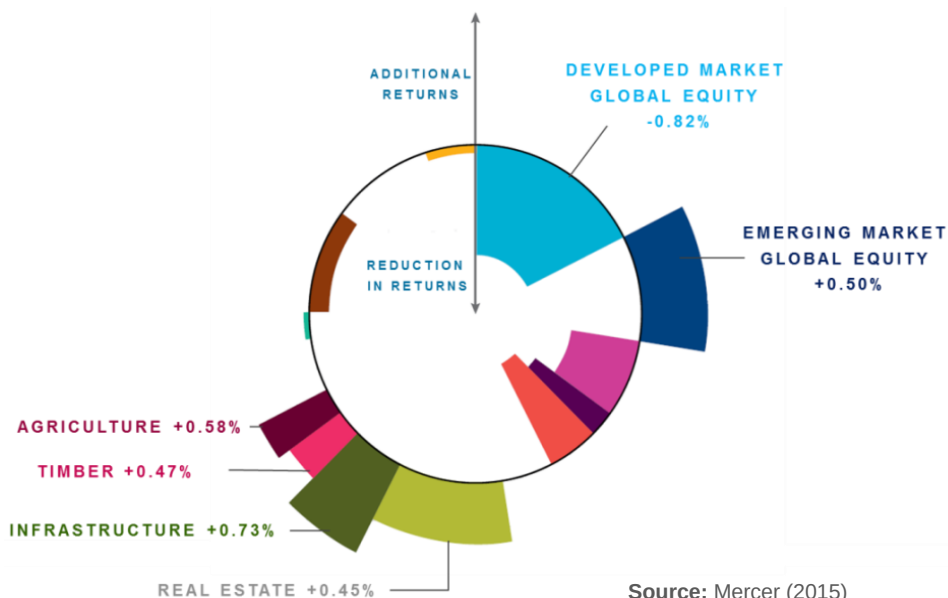

CLIMATE IMPACT ON RETURNS

INVESTOR IMPLICATIONS – 2°C SCENARIO

What impact could the low-carbon energy transition and physical damages have for an investment portfolio in the next 10 years?

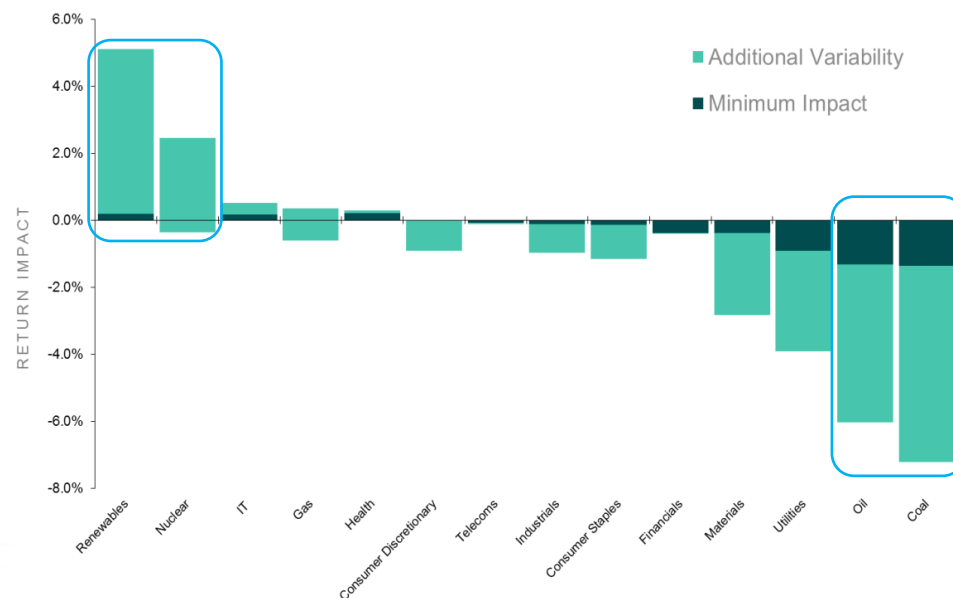

- 2°C scenario has greatest near-term (i.e. 10 year) impacts
- **Asset classes** and **sectors** matter
- Investors should review exposure to “at risk” sectors e.g. Energy, Utilities

10 YEAR MEDIAN ANNUAL RETURN IMPACTS –
ASSET CLASSES

Source: Mercer (2015)

10 YEAR MEDIAN ANNUAL RETURN IMPACTS –
SECTORS

WITH RISK COMES OPPORTUNITY

SUSTAINABILITY THEMED INVESTMENTS

RENEWABLE AND ALTERNATIVE ENERGY

Solar, wind, wave, biofuels, and geothermal technology

ENERGY EFFICIENCY

Storage plus power network, industry, building, and transport efficiency

WATER INFRASTRUCTURE AND TECHNOLOGIES

Irrigation, storage, treatment, drainage and flood protection

POLLUTION CONTROL

Pollution control solutions and environmental testing

WASTE MANAGEMENT AND TECHNOLOGIES

Recycling processing, hazardous and general waste management

HEALTH AND SOCIAL SERVICES

Positive impacts for social development and poverty or aging population

SUSTAINABLE CONSUMER GOODS

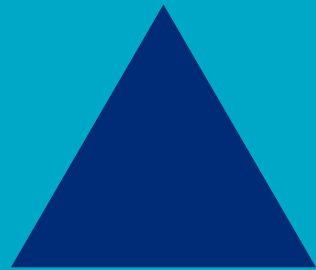

Meeting shifting consumer demands in sourcing and technology

RESPONSIBLE FINANCE

Supporting role for real economy

MANAGER APPOINTMENTS ESG AND STEWARDSHIP

MERCER'S ESG RATINGS

ASSESSING INTEGRATION

- Overall rating represents our assessment of the strategy across the four factors, where ESG 1 = highest possible rating and ESG 4 = lowest possible rating

ESG1	ESG2	ESG3	ESG4
Leader in the integration of ESG factors and active ownership into core processes 	Less advanced than ESG1 but with moderate integration of ESG factors and active ownership 	Limited progress with ESG integration and active ownership, albeit with signs of potential improvement 	Little or no integration of ESG factors and active ownership into core processes and no strong indication of future change 

IDEA GENERATION

- Efforts to identify and integrate ESG factors into active fund positions as a source of value added.
- Identification of material ESG factors - skill of team members, data sourcing.

IMPLEMENTATION

- Engagement and proxy voting activities (where applicable) with investee companies.
- Does the investment horizon align with the ability to effectively implement ESG views?

PORTFOLIO CONSTRUCTION

Efforts to integrate ESG driven views into the portfolio's construction.

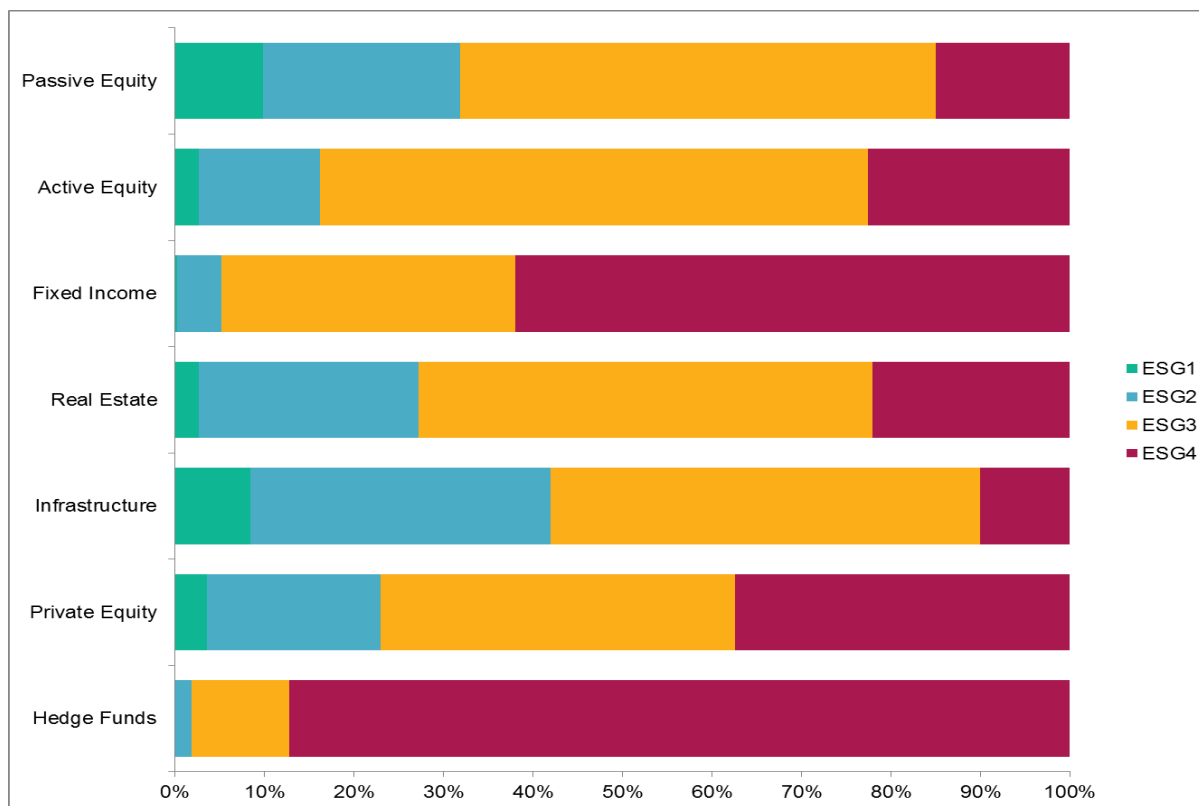

BUSINESS MANAGEMENT

Firm-level support for ESG integration, engagement activities and transparency.

APPENDIX

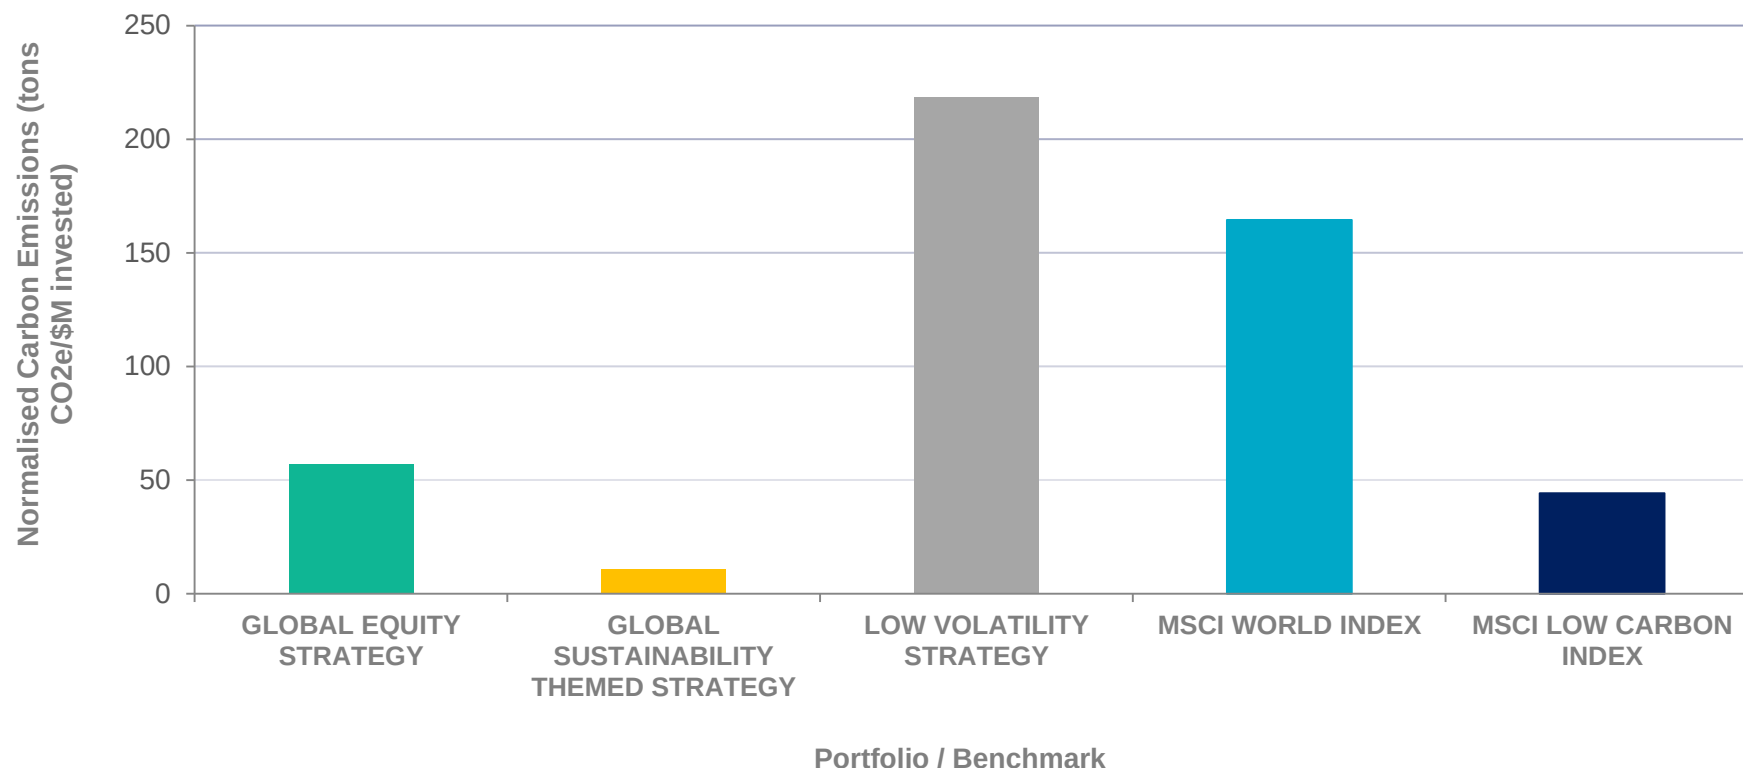

RESPONSIBLE INVESTMENT – AN OVERVIEW

ASSESSING RISK – CARBON FOOTPRINT ANALYSIS

Carbon footprint results of passive and active global equity strategies.

- Global equity
- Sustainability-themed global equity
- MSCI World
- MSCI Low Carbon Target

RESPONSIBLE INVESTMENT – AN OVERVIEW

UN PRINCIPLES FOR RESPONSIBLE INVESTMENT

INCORPORATE ESG ISSUES INTO INVESTMENT ANALYSIS AND DECISION-MAKING PROCESSES

- Include ESG issues in investment policy statements
- Support development of ESG related analysis
- Assess the capabilities of internal and external investment managers in incorporating ESG issues

BE ACTIVE OWNERS AND INCORPORATE ESG ISSUES INTO OUR OWNERSHIP POLICIES AND PRACTICES

- Develop and monitor an active ownership policy, including voting and engagement
- Participate in collaborative engagement initiatives
- Request investment managers to undertake and report on ESG-related engagement

SEEK APPROPRIATE DISCLOSURE ON ESG ISSUES BY THE ENTITIES IN WHICH WE INVEST

- Encourage and request transparency and reporting on ESG issues
- Support initiatives promoting ESG disclosure

PROMOTE ACCEPTANCE AND IMPLEMENTATION OF THE PRINCIPLES WITHIN THE INVESTMENT INDUSTRY

- Align investment mandates, monitoring procedures, performance indicators and incentive structures accordingly
- Communicate ESG expectations to investment service providers
- Support the development of tools for benchmarking ESG integration

WORK TOGETHER TO ENHANCE THE EFFECTIVENESS IN IMPLEMENTING THE PRINCIPLES

- Support/participate in networks and information platforms to share tools, pool resources, and make use of investor reporting as a source of learning
- Develop and support appropriate collaborative initiatives

REPORT ON ACTIVITIES AND PROGRESS TOWARDS IMPLEMENTING THE PRINCIPLES

- Disclose how ESG issues are integrated within investment practices
- Disclose active ownership activities
- Make use of reporting to raise awareness among a broader group of stakeholders

RESPONSIBLE INVESTMENT – AN OVERVIEW

SUSTAINABLE DEVELOPMENT GOALS

Could the SDGs be useful as an “impact measurement” tool?

IMPORTANT NOTICES

This contains confidential and proprietary information of Mercer and is intended for the exclusive use of the parties to whom it was provided by Mercer. Its content may not be modified, sold or otherwise provided, in whole or in part, to any other person or entity, without Mercer's prior written permission, unless required by law or order of a court or regulatory body.

The findings, ratings and/or opinions expressed herein are the intellectual property of Mercer and are subject to change without notice. They are not intended to convey any guarantees as to the future performance of the investment products, asset classes or capital markets discussed. Past performance does not guarantee future results. Mercer's ratings do not constitute individualised investment advice.

Information contained herein has been obtained from a range of third party sources. While the information is believed to be reliable, Mercer has not sought to verify it independently. As such, Mercer makes no representations or warranties as to the accuracy of the information presented and takes no responsibility or liability (including for indirect, consequential or incidental damages), for any error, omission or inaccuracy in the data supplied by any third party.

This does not constitute an offer or a solicitation of an offer to buy or sell securities, commodities and/or any other financial instruments or products or constitute a solicitation on behalf of any of the investment managers, their affiliates, products or strategies that Mercer may evaluate or recommend. This does not contain recommendations of any changes to the method and assumptions, or the contribution/benefit structure. If this financial update leads to discussion on potential changes in any of these areas, then more detailed actuarial advice may be required.

The calculations in the paper use methods and assumptions appropriate for the purpose of reviewing the financial position of the Divisions / Scheme. This work is set out under the terms of our engagement letter dated 20 December 2011. Mercer does not accept liability to any third party in respect of this paper; nor do we accept liability to the Trustee if the information is used for any purpose other than that stated.

For Mercer's conflict of interest disclosures, contact your Mercer representative or see www.mercer.com/conflictsofinterest.

We believe that Mercer's manager research is the best in the market whether it is delivered within an advisory or fiduciary service model. With this in mind, unless we advise you otherwise, where Mercer advises on outsourced investment services, these will be based solely on products and services offered by Mercer group companies. Where investments are placed with Mercer, Mercer group companies may receive on-going periodic fees based on the value of funds under management in addition to any service fees agreed. All of Mercer's outsourced investment services are based on the intellectual capital created within our global manager research team.

Our clients' industries are extremely competitive. The confidentiality of companies' and trustees' plans and data is obviously critical. Mercer will protect the confidentiality of all such client information.

Similarly, pensions consulting is a competitive business. We view our approaches and insights as proprietary and therefore look to our clients to protect Mercer's interests in our proposals, presentations, methodologies and analytical techniques. Under no circumstances should this material be shared with any third party without the consent of Mercer.
